Engine Life Begins at "40"

Tedious Engine "Break-In" Eliminated

No tedious "break-in" period is necessary for new Dodge owners. With Dodge you can drive at a brisk pace right from the start. Dodge actually "speed-proofs" your engine . . . gives cylinder walls a protective oil-absorbing coating that guards against damage during the critical "break-in" miles. This process is exclusive with Dodge at no extra cost to you.

Stop by your Dodge Dealer and look over today's luxurious Dodge. Check the many other big advantages Dodge offers . . . All-Fluid Drive . . . Full-Floating Ride . . . Chair-Height Seats . . . extra-roomy interiors. Then you'll know why owners are so enthusiastic about their Dodge cars . . . why Dodge gives most for your new-car dollar today.

ONLY DODGE
"SPEED-PROOF" ENGINES

With this exclusive Dodge process you can start off at 40 miles per hour. After 250 miles, car speed may be increased at the rate of 5 miles per hour for each 25 miles traveled. At only 350 miles your engine is ready to "go".
