What'll you have? We got Mary. Aint we lucky? She might even stick around for awhile if she likes us so if yuh come in and we got on our company manners it's jest fer a short spell 'til Mary gits used to us. We'll soon be back in the same old rut. Speakin' of ruts, seems as how our Wall Street competitor is doin' a lot of advertizin' fer 49c so guess we gotta do it too so yuh'll come around and see us. Now that "His Nibs" is back from his first vacation he's gonna go to work and tap the vinegar barrel. It's plum fulla vinegar and if yuh like bulk vinegar fer yer pickles git that jug. Paw's got hid in the basement and bring it around and we'll fill it fer 49c a gallon. Now nobody wants to drink a gallon of coffee these days — it's too derned hot — but we figger yuh'd like a deal on coffee so this week it's gonna be Chase and Sanborn fer 49c a lb. And here's one fer the books — 7 rolls of Northern tissue fer 49c. We aint got a bag big enuf to hold 7 rolls but we'll tie a rope on 'em and you can drag 'em home.

We can't mention 49c very much in the meat department cause some of the stuff is gonna cost yuh more and some is gonna cost yuh cheaper — but we got some pork loins we're gonna cut up. First off is the rib end which costs cheaper — they're only 37c a lb. Then the loin end is 49c a lb. There we are again, right back where we started. The center cut chops has gotta cost more — but fer 69c a lb. they're really fit fer a king — and Mr. Kingan has got some sausage fer 35c a lb. Aint that peachy?? Could cha use 4 lbs. of peaches fer 49c?

Are you still picnicin'? We jest got in some Swifts pork and beans. Someplace along the line you've et 'em and know they're good — but we don't wanna keep 'em here so fer 49c you can have 5 (five) cans. If yuh wanna fix up somethin' kinda special have hot dogs and beans — you can git a lb. of skinned dogs fer 49c a lb. You gotta have somethin' to eat all this with so fer 49c you can git some paper plates and cups — and some forks and spoons. Now aint we thoughty to fix yuh up like that???

P.S. Mary didn't like us — aint it a mess??

City Cab Team Takes Top Spot

At the end of another week of the recreation program's softball tournament, the City Cab Bluecaps have managed to work themselves into the top spot. And the Blackies Chevrolet team is even further into the basement.

Current standings are: City Cab Bluecaps: 6 won, 2 lost for a .750 rating; Conroy's Lookouts: 5 won, 2 lost, for .714, and the Blackies Chevrolet team: one won, 8 lost, for a percentage of .111.

It started Thursday when the Bluecaps beat the Conroy Lookouts, 8-1. Monday, the City Cab Bluecaps took Blackies' Chevrolet 11 to 6, despite the Chevrolet team's previous victory over the (to them) undefeated Conroy team.

Thursday (today) the Conroy Market Lookouts and City Cab Bluecaps will play another ball game, and this one still means business. With only a one-game lead, the Cab team can be easily replaced in the top spot. Monday, both teams play again in another game capable of changing the team in number one position. Tuesday, the Blackies Chevrolet team will try once more, this time against the Bluecaps. But they still have a long way to climb, with eight losses and one victory to their record.

Speed Takes Life And Money, Too

"Deadly, penny-wise, economy!" This is what Chief Joseph G. DeVriendt, who leads the July campaign against excessive speed, calls the mental attitude of many drivers.

"This attitude," he said, "is what makes so many motorists who would never risk money gambling go out on the highway and stake their lives, and other persons' against five or ten minutes of saved time."

According to the State Safety Commission, if the speeding motorist has an accident at 60 miles an hour while gambling in this way, the odds that he will kill or seriously injure himself, his passengers, someone in another car, or perhaps an innocent pedestrian, are so staggering that few professional gamblers would touch it with a 10-foot pole.

Emphasis on excessive speed, and its consequences, is the keynote of July traffic safety program, which is being conducted with the cooperation of the National Safety Council.

so received bruises and abrasions. According to the State Police report, the Roberts vehicle was proceeding north on Middlebelt Road, the Klobacher car going east on Nine Mile.

Friday at 7 p.m. three people were injured when a car drove off the U. S. 16 Cut-Off 1/2 mile west of Drake Road. According to police reports, the driver, Mrs. Willie Howard, stated that she lost control of the car when the left rear tire blew out. The car plunged into a ditch and came to rest in a slight gully. According to Arnold Green, whose ambulance took the injured to Redford Receiving Hospital, Mrs. Howard suffered possible internal injuries, and a passenger, Mrs. Mamie McConnell received a compound fracture of the leg, possible fracture of the skull, a severe head laceration and minor abrasions. Two small children riding in the car were also taken to the hospital. Lilla May Howard, 2 1/2, was released with no injuries, and Dorothy Howard, 1 1/2, was retained for observation of a possible cerebral concussion. All were Escorte residents.

In two accidents at 10 p.m. on Thursday evening, no injuries were received. The cars of Hugh M. Mackay, of 21535 14 Mile Road and Arthur F. Dicker, of Detroit, collided on Grand River Avenue near Nine Mile Road. According to Farmington City Police reports, the car driven by Dicker attempted a U-turn in front of Mackay. Both cars were going west on Grand River. At Farmington Road and Shiawassee, cars of Harold F. Krause of 21293 Woodland, Farmington, and Robert D. Staur of Plymouth, collided, police say, when Krause, traveling north on Farmington Road, made a wide right turn.

There are two slides to every argument, but no end.

Mrs. R. K. McConchie is reported ill at her home in the Owens apartments on Grand River.

Herbert Mundt on Randall left Sunday for a cruise with the Naval Reserves, through Lake Superior and Georgian Bay, where they will be entertained by the members of the Canadian Navy stationed there.

Fenestra STEEL CASEMENTS

You'll like the beauty of their slender steel frames and fine hardware appointments. Finger touch operation is permanent — steel doesn't warp, shrink, swell, splinter. Narrow steel frames provide larger glass areas, that admit more daylight. You get better ventilation — the casements reach out to catch breezes from three directions. They provide safer cleaning, better screens, superior weather-tightness.
