Water and Anti-Freeze sealed-in permanently-never needs refilling. Installed Permanently for entire homes, apartments, etc.

The Healthiest, the Safest as well as an Economical Way to Heat Your Home or Office

HEALTHIEST—Circulating hot water gives you the kind of controlled all-over warmth many doctors choose for their own homes, without the dry parched air that other methods of heating give, and without dust or dirt blowing around.

SAFEST—Place your finest drapes right over the heat—

er without the slightest danger. More important, children and pets can't be burned.

ECONOMICAL—You get balanced, steady warmth even when current is turned off. After thermostat turns off electric element, circulating hot water continues to circulate heat for comfortable warmth.
