The reason for our request in that some of the fireladdles who cling to the rear of the vermillion wagon might possibly get flung off it sometime when they pass over obe of the less-monoh craters in our township roads. A vehicle fin-mediately behind the firebuggy wouldn't have much chance of missing the failing firelady. Although this might possibly consiltute one way to fill the holes in township roads, we'd rather have the firemen. So keep your distance; 500 feet, that is. Home Nursing

No good answer has been found to the question. Only two 1950

No good auswer has two 1950 to the question. Only two 1950 Farmington bike licenses have been sold to date. This fact is both ap-palling and frightening to the Poalling and frightening to the Po-ce chief struggling with the moral onsequences of the lack, of li-

censes. Bike license sales have fallen steadly since adoption of the law sequiring their purchase. Two years ago 200 tags were sold, last year only 85, and this year; only two have gone over the counter at the municipal building. The Po-lice Department intends to bring this number to the 200 sold two
