EDITORIALS

When The Siren Blows . . .

the fire engine should be on the way. That few minutes gained may spell the difference between a home and a smoldering pile of rubbish.

The Farmington area is too big, too well populated to rely on a full volunteer fire department. A considerable investment has been made in modern fire fighting equipment, but it can not be utilized to its fullest under the present set-up.

This situation has been suggested and discussed at both the City Commission and the Township Board. It has, up until now, been ruled out because of the increased expense of such a program.

We do not mean to indicate that fire damage could be completely eliminated under such a plan, but it could be reduced considerably. This plan is being carried out successfully in a number of communities in this vicinity.

If You Belong . . .

if you are proud to be a resident of Farmington Township and this democratic nation — you won't forget R-Day, March 27, the last day of registration for the special Building Code election.

The special election on the Township Building Code, set for Monday, April 17, is your responsibility. It is your opportunity, too — your chance to speak when it counts the most.

That knock on the door . . . may be opportunity — answer it. Yes, it may be an opportunity to help someone who really needs help. And that someone might be your friends, your neighbors — yes, even yourself.

That Knock On The Door . . .

may be opportunity — answer it. Yes, it may be an opportunity to help someone who really needs help. And that someone might be your friends, your neighbors — yes, even yourself.

BIBLE COMMENT
FOR MARCH 19
Word of God Is Christianity's Motive Power

THE rapid and remarkable growth of early Christianity is summed up in the brief, concise text contained in Acts 19:20.

These early Christians were responsive to the word of God. A Psalmist, many years earlier, had written: "My word have I hid in mine heart, that I might not sin against Thee."

MICHIGAN MIRROR

By GENE ALLEMAN

The Michigan state legislature met at Lansing this Wednesday, March 15, for a special session called by Governor G. Mennen Williams.

The Governor's office is proceeding on the principle, as laid down by several Supreme Court decisions and on the advice of the Attorney General, that the Governor himself must define the subject matter as to new legislation which legislators may consider in special session.

Accordingly, the lineup to date presents an interesting situation. Governor Williams is advocating again the State Corporations Profit Tax as a new source of revenue.

As state spending is usually popular with minority pressure groups which have an axe to grind, the Republican legislators are apt to be on the defensive if they adhere to previous declarations for economy.

By advocating the program of the Michigan Good Roads Federation, the Governor is credited with a smart political move designed to put legislators more on the defensive. In fact, it is more than obvious that the Williams strategy steadily has been to accomplish just that — by maintaining a political offensive to embarrass his critics.

To date, it has been the accepted policy in Michigan to finance highway needs from revenues paid by highway users. The Governor would go beyond this point by using the general fund in part to finance needed construction in cities, villages and townships as well as state routes outside of municipalities.

The Governor has included in the legislative call a proposal for aid to Michigan wine makers. He would change the law whereby wine makers could produce stronger wines in competition with other states such as California.

Another subject matter before the legislature is a proposal by the Governor to enable counties and townships to utilize Federal housing machinery. The Governor has also proposed special zoning authority for municipalities.

Another subject matter before the legislature is a proposal by the Governor to enable counties and townships to utilize Federal housing machinery. The Governor has also proposed special zoning authority for municipalities.

Looking Back Through The Enterprise Files

Forty Years Ago (March 18, 1910)
New Stamp Law

An order has gone forth from the Post Office Department at Washington to the effect that clerks in handling out stamps to patrons must push the stamps under the bars face downward. This is a sanitary measure. Upon the ledge of the stamp window are daily lodged thousands of little germs. The stamp, in its course across the same ledge, picks up several hundred and if the gum side is down, the purchaser proceeds to "lick up" the germs.

Local Option Dinner
The local option dinner and rally on Saturday, March 12, was quite well attended. The speakers delivered stirring addresses and Miss Robie Clendenning added much to the program with her singing of several appropriate selections.

Ten Years Ago (March 21, 1940)
Select Inspector and Board
A representative of the Michigan Inspection Bureau will act as the electrical inspector for the City of Farmington. Members of the City Commission in a meeting held last week voted to appoint a representative of the bureau, to be selected by the bureau, to make all wiring inspections in the city.

Five Years Ago (March 22, 1945)
Red Cross Drive Ends
Farmington has now contributed approximately \$10,000 of its quota of \$12,000, according to reports from Mrs. Joseph DeVrient, local chairman of the Red Cross drive. As more and more Red Crosses appear in the windows all over the city and township, and as more and more active workers are seen on the streets of the city and out on the township roads, one knows that the volunteer workers are putting forth real effort to achieve the quota.
