# Around The Block

WITH THE PASSING ... of the vertal equinor and several large vehicles, Farmington, like most of the rest of the state. Is some again affoat on a see of mud. And with the coming of Mud, there is the passing of March and the prospect of April, April showers, and more Mud. It's just he price due and pay-able for the pleasure is living "out". Even though walking (from the car to the house, that is none again may be a temporally popular pastume, and the mud tracked in on the carpets won't please the missue, just keep thinking ahead to how nice the same area is in the summer time. **Red Cross Drive** Hits \$800 Mark

### ONCE AGAIN ....

ONCE AGAIN ... not flying saucers, but Robin Number Two has been sighted in Farm-ington. Appropriately enough, No. 2 was seen on the first day of Spring-Spotters this time were the VanZant family who watched Mr. Redbreast as they had breakfast Tuesday. The report we're walking for now is the first mosquito blut. The first mosquito bite is the opening ritual of the ceremony of welcoming summer time. Summer — when it's dust instead of mud. cold instead of heat, acrees instead of a torm windows, and everybody wishes, it was cooler again. Insatiable, hat's all. . . . .

## PERFECT IDIOT .

THE PERFECT IDIOT ... isn't included as a personal attack. After all, who's perfect? But it's the title of two things. One is the Parmington High School Junior Class play to be shown this Saturday night at the high school gym, and the other is what you'll be if you don't drop in Saturday night to see the play. Ourtain time is 3:13, which means you'd better get there ahead of time because it's a play, any part of which you don't want to miss . . . . .

### FEW LESS . .

A FEW LESS.... bales are among those present in Grand River Avenue this week. The fellows were out with their little tar truck and filled some of the cavi-ties. It's one step in the right direction. This winter has been tough on the roads, and that includes concrete and blacktop as well as gravel sur-faces. The constant freeze and thaw has torn the roads up more than a little bit, as is obvious unless you're a confirmed pedestrian. So we rather expect to see the men with their little truck again before long. Wonder: Who chews all that Black Jack they stuff into the holes?

## WE GOT CAUGHT ...

WE GOT CAUGHT ... with our aplomb down Tuesday. We were summarily shamed and flustered by a call from a school girl, who, like most inquisitive Ameri-cans, turned to her local newspaper for the answers to any and all questions. This one happened to pertain to some major state govern-mental executives. Naturally the answers were right up our alley, all contained in that handy collection of fact, the Michigan Manual. We were ashamed that we couldn't recite the names right off with any con-fidence, flustered when we found the Manual wasn't present, and manused to find that the local schools didn't have one handy. But a few frantic phone calls got us the answers right off, making us feel rather foolish. So all right — do YOU know the middle initials of the Lieutenant Governor?

Two cases of rables were report ed in Farmington Township this week, according to James Ethier, Township Dog Warden.

week, according to James Ethler. Township Dog Warden. The two rabid dogs were picked' up in the inkster Road - Eight Mile Road section. Ethler stated that the area has been quarantined. He pointed out that owners of dogs are responsible for their care. Ethler re-emphasized his previous pies for more cooperation from resi-dents and dog owners in the town-ship. He pointed out that if the threat of rabies is to be reduced in this area, dog owners must cooper-ate in keeping their pets confined and not allow them to run loose. Ethler added that stray dogs are being picked up and will continue

# **Ouestions Asked In Effort To**

**Clarify Points Of Ordinance** 

The Farmington Township Board went on record at its regular meeting Tuesday night approving the Building Ordinance 100%. The statement was insued by the Board following a request from Dr. Floyd Sumrill. 29015 Edgewood, for a recould not of record on how the Board atod on the issue. Sumrill stated, "Was.it not the purpose of this Township Board, through this code, to try to avoid the danger to lite and health inherent in the building of houses of filmsy con-struction, without necessary safeguards against unhealth living code studies and protection from fire?". He continued, "If the building code still serves the same needed and worthy purpose that it did at the time it was passed, isn't it reason by resolution and publication give
