

Young Pianists Play At Spring Musicale

Six young pianists will represent Farmington tonight, May 11, at 8 p.m. at a Spring Musicale given by pupils of Ruth Dayer in the auditorium of the McGregor library in Highland Park.

Sylvia Jean Bates will play Rachmaninoff's Prelude in G Minor; Delene Ruth Domes will play Kaschau's Concerto in C. Lois Ayres will render Mozart's Sonata in C, and Jane Boyce will present "High Jinks," by Robin.

Judy McNeill will play "Little Tarantelle" by MacLachlan, and Daniel Burnett will render Repper's "Penny Hop Polka." Miss Domes and Miss Ayres will be accompanied by Mrs. Dayer at a second piano. There is no admission charge for the musicale, to which the public has been invited.

There is no disparity in marriage like unsuitability of mind and purpose.

Mothers' Gym Class Finishes First Course

Farmington mothers brought to a close their first gym course last Wednesday night, when they finished the course by playing a mother-daughter ball game, which the daughters won.

The course, part of the adult education program, was taught by Miss Ann Metzger, girls' gym teacher. The mothers practiced exercises, then had square dancing and ball games.

Mothers hope to continue the course next fall.

FILE PETITIONS

First petition for candidacy in the School Board election June 12 was that of Leo Kelly. Petitions of nomination will be received by board secretary Rolfe Smith up to and including May 20. The terms of two board members, president D. Gerald Domes and treasurer Ray Eichler, expire this year.

Trojans Win 2

(Continued from Page One)

Clareville held a slugfest on the Avondale field as the Trojans emerged with an 11 to 9 victory. Clareville came through with another big first inning, scoring five times before the side was retired. Singles by Nelson and Albers along with a triple by Derrick were the big blows of the inning. Crossing the plate were Rutilla, Albers, Derrick, Riggs, and Nelson.

Avondale scored twice after two were out in its half of the first inning. An infield error and a home run by first baseman Lone gave Avondale two runs.

Clareville scored twice more in the second, increasing its lead to a 7-2 status. Albers walked, stole second and scored along with Derrick when the catcher threw wide to first trying to pick Riggs off.

Avondale was held scoreless in the second, but broke loose with two runs in the third as Lone again smashed a home run with a runner on base. This made the score stand 7-4 but it didn't stay that way long. Avondale pounded out five runs in the fourth and knocked Don Gruse from the box.

Three walks and three singles accounted for the five runs and the score stood 9-7 at the end of four innings.

Clareville finally caught Avondale in the sixth inning and passed them with a three-run out-break. Albers singled, Riggs doubled, putting Albers on third. Nelson poked a single to left, scoring Albers, and Roussier singled to left, scoring Riggs. Robitaille grounded to short, Nelson scoring on the play and putting the Trojans in the lead. An insurance run was registered in the seventh as Albers doubled, stole third, and came on home on a bad throw to third.

Nelson, Derrick and Riggs each banged out two hits but hitting honors again went to Albers who hit safely three times.

Farmington Students Get Four U-M Scholarships

Regents-Alumni scholarships at the University of Michigan have been awarded to four graduating seniors in Farmington High School. It was announced Wednesday by Dr. E. J. Walter, dean of students and chairman of the Committee on University Scholarships.

The four scholarships go to Donna J. Bryan, 21125 Haggerty; Marcet Ann Plunton, 22001 Maple; Richard E. Schreiber, 34024 Oakland; and Bruce H. Treweek, 25155 Westmorland. The scholarships were granted by the College of Literature, Arts and Science.

Each scholarship carries a stipend equivalent to semester fees for the freshman year, and are renewable for three additional years if the student's performance at the University warrants a continuation.

THURSDAY, MAY 18	
1:00 p.m.	Blue Star Mothers.
8:00 p.m.	American Legion.

FIND VALUE OF NEW COMPOUNDS IN MSC RESEARCH

Tests of almost 400 compounds is the record achieved by the branch of Biological Coordinating Center of the National Research Council located at Michigan State College.

In operation since mid-1948, the program is conducted by scientists of the Michigan Agricultural Experiment Station in greenhouses and farm plots at East Lansing. Compounds are submitted by commercial manufacturers, government agencies and regional laboratories to be tested for efficiency.

Main points considered are the herbicidal action, growth regulating properties and antibiotic effectiveness. From these three actions come products which are used to kill weeds, increase quality and size of horticultural products, and to combat disease.

Dr. Charles Hammer, MSC research horticulturist, reports that the MSC unit is one of 11 in the United States where testing work is done. Frequent listings of new compounds are received and the MSC scientists decide which ones hold the most promise for effectiveness. All results are published once a month and circulated to the agencies which originally developed the compounds and to other testing agencies.

Dr. H. B. Tukey, head of the MSC department of horticulture is a member of the National Research Council which administers the testing program.

Example of a compound whose effectiveness was proved by the MSC testing program is actofione, now used to combat powdery mildew on such crops as beans and strawberries.

Testing work is carried on continually as new compounds are developed. When found to be effective, the compounds are frequently processed for general distribution by commercial companies.

Ask Groups To Attend Meeting

Farmington organizations are being asked to send representatives to the Safety Program in the Detroit Schools, and there will be a panel discussion by members of the Safety Patrols and high school student council. Safety Officer Ralph Auten will also address the group.

Sergeant Statz will speak on the present Safety Program in the Detroit Schools, and there will be a panel discussion by members of the Safety Patrols and high school student council. Safety Officer Ralph Auten will also address the group.

FIVE MSC ALUMNI TO BE HONORED AT COMMENCEMENT

Five Michigan State College alumni will be honored at annual commencement ceremonies June 4 when they will receive the 1950 Alumni Awards For Distinguished Service, according to Tom King, director of alumni relations.

Scheduled to receive awards are: Robert J. Baldwin, East Lansing, retired director of the MSC Cooperative Extension Service; Jay S. Hart, Plunton, Michigan, president of Midland Utilities Co., and South Shore and South Bend railroad; Horace W. Norton, Brattleboro, Vermont, executive secretary-treasurer of the Holstein-Friesian Association of America; Dr. Thelma E. Porter, home economics department head, University of Chicago; and Howard C. Rather, dean of MSC Basic College.

Plans for honoring outstanding alumni originated in 1946 by the Washington, D. C. MSC Alumni Club. Five are selected each year by a committee of the national Alumni Association, headed by Ray A. Turner, Washington, D. C.

During 1949 the industrial use of the platinum metals for electrical and chemical purposes in the United States exceeded their use for jewelry and decorative applications.

School Board

(Continued from Page One)

trict by combined action of the Farmington, Clareville, and the County Boards of Education Monday night. The subdivision has always sent its youngsters to the Farmington schools, but has been paying its taxes to the Clareville district. The mixup came from a log in the road serving as boundary lines for the two systems.

Action to transfer the subdivision came after residents had petitioned both Farmington and Clareville School Boards.

CONSIDER BUILDING PLANS Discussion was also held at the board meeting Monday night to start planning for an extended building program to meet present and future needs of both elementary and high schools. According to superintendent Dunkel, planning facilities which the school can use with no charge are available from government offices.

Increased enrollment and rapid expansion of the community is already taxing present facilities, including the new buildings opened last year.

New plans will have to consider a greatly enlarged high school, plus further expanded elementary facilities. Next year, there will be a need for seven more rooms. According to school board president D. Gerald Domes, the plans will also include a proposal for an enlarged athletic plant.

TOWN CLUB LUNCHEON

Newly elected officers of the Town Club will be installed at the Annual Inaugural Luncheon to be held Saturday afternoon at Saratoga Farms.

The luncheon will begin at 1:30 p.m. Officers were elected at the last regular meeting held Thursday evening, May 4.

Postmen Count Pheasants For Conservation Dept.

The prebreeding season pheasant count now is being made by nearly 3,000 rural mail carriers and will be followed by a conservation department crowing cock survey.

Rural postmen in the course of regular runs are counting ringnecks in 38 southern Michigan counties where pheasants breed.

Department game men in their survey through the first week of June will cover 37 routes in 28 southern Michigan counties. Wildlife management students from the University of Michigan and Michigan State College have been solicited as observers on the spring project.

To get as good an estimate as possible of the breeding potential, rural postmen will stop every mile and listen for two minutes. They will cover each 20-mile route at least three times. Good as well as poor pheasant range will be canvassed.

Observers will be getting up at 3:00 a.m. in order to get at their stations a half hour before sunrise. Crowing intensity is greatest in the two hour period around sunrise.

GRADUATES

CLARENCE OKESKY

Mr. Clarence Okesky, 20124 Reseller, Farmington, has been graduated from the accounting course of the Joy Road School of the Business Institute.

Mr. Okesky has been placed by the school in an office position in the sales department of the Lincoln-Mercury Division of the Ford Motor Company.

Magnetic nickel alloys in electric clocks help make possible their compact size, accuracy and low current consumption.

Kiwanis Club Defeats Exchangeites For Trophy

The Farmington Kiwanis Club took the Kiwanis - Exchange Club bowling trophy for the first time Tuesday night. The trophy, an 18-inch-tall award topped by a statuette of a bowler, had resided with the Exchange Club for the first two years of its existence.

Gus Tarr, Kiwanis bowling captain said Wednesday that the Exchange club was defeated by "about 350" pins. The trophy will now become Kiwanis Club property for the next year, and will have the club's victory engraved on it.

There's a Right Window for EVERY ROOM when you specify...

Fenestra

STEEL CASEMENTS

For the living room, there is the picture window shown, with ventilating steel casements at each side. Here's an unhampered view of a pleasant landscape, architectural beauty and plenty of fresh air ventilation.

For the kitchen, Fenestra windows over the kitchen sink provide extra working light (the slender frames allow larger glass areas). A finger's touch opens the windows to deflect the breezes into the kitchen.

Fenestra steel casements are just right for the bedroom—swing leaves reach out to catch the breezes from any of three directions. You can get 100% opening for ventilation—more than twice the ventilating area provided by double hung windows in the same size window opening.

With all their advantages, Fenestra Steel Casements cost less to buy and install. Standardization simplifies production, simplifies installation. See your architect or builder, or phone

IT'S THE SAME OLE THING.

Every darned year it happens to us — we keep tryin' to make the town beautiful. The day of the "big blow" it blowed over our flower seeds and man — did they ever sail up Farmington Road. Betcha Uncle Mort is gonna be surprised when he finds a lonely little petunia in the middle of his pretty lawn. He aint gonna like us! But all you lucky people that got one of those chickens last week is gonna like us — and be back for more. Didcha ever eat such a swell hunk of fowl? We're gonna have more of the same this week — and we're gettin' twicet as many — but you'd still better call in and reserve as many as you want. They're only 49c a lb. Seems as tho the boys are goin' all out fer Brookfield stuff this week. First off they got Brookfield butter fer 59c a lb. Don't tell nobody about that cause we don't wanna sell too much at that figger. Next is Brookfield rolled sausage fer 29c a lb. Aint that interestin'? And the last thing is Brookfield cheese in a 2 lb. package what you can git fer 69c.

With butter so cheap don't suppose you'd be very interested in Durkees oleomargarine at 2 lbs. fer 45c but efen you want some — we got it. We also got our ground beef fer 53c a lb or 3 lbs. fer \$1.49. You know this is all fresh ground daily from fresh beef. If you don't believe me stop around any morning about 8 and watch the boys 'git grindin'. After the grindin' job is done they start slicin' — you know what?! That's right — our own bacon. If you git a whiff of that when they're slicin' it you'll not hang around here. You'll grab off a hunk and run home fer a second breakfast. Oh gosh — have yuh got enuf coffee? Well, git a lb. of S & W fer 75c.

If you have a home freezer or rent a locker we got a money saver on orange juice by the dozen. Here's the dope — you can git a dozen cans of Old South Frozen Orange Juice fer \$2.69 this week. How many dozen do you need? There's also some Honor Brand peas what is only 45c fer 2 packages. If you aint got a locker you know you can pay the rent on one fer a year with yer savin' by gettin' these specials. Didcha ever think of that???
