Did we ever tell you of the time that 500 ostriches were mixted to a party ... and only 499 came. The ostriches were so embarrassed at the lack of courtesy thus shown by one of chief flock that they hid by burying their beads in the sand. After a while the 500th ostrich galloped up to the party grounds, looked around and said, "goodness, I'm the first one here."

using something that old for using something that old... but we won't because we like storles of such character. Take storles of such character. Take the one about the old woman for instance. Seems she had a stool that was too high to be con-fortable. "50," said. a friend, or the feat."
"Nope," said the old lady, "won't help at all. It's the seat that's too high."

Nor will we apologize for reminding you to bring your car in for its fall lubricatian and tunepu. Someone shoulk and it might as well be us. Especially when our shop is so completely outfitted with all the hatest sclentific gadgets to insure a perfect job and staffed by men with the "know-how" it takes to operate these gadgets. You'll drive farther, in greater comfort and safety, if you have them get the car in shape for the fall and ... ar in shape for the fall and rinter now!

A law enforcement official stated that in order to discourage night holdups, one should not carry any more money than is absolutely necessary. Hal with taxes and prices the way they are, we've had a tough time carrying that much in the day-time.

Of course, in our book, one way to get around rising renaportation costs is to drive the new Studebaker. Greater gasoline filleage and lower maintenance costs mean more money in your pocket very month. More driving comfort, too, whether its about town or from Detroit to Seattle. We'll be glad to demonstrate the new Studebaker at your convenience.

... Soon be time for the United Foundations drive. We hope you are ready.

We've noticed that while the man who gives in when he's wrong is wise, the man who gives in when he's right is, no doubt, married.
