POLITICAL NOTE: HORSES IN MID-STREAM

Forming an impressive silhouette, two tired work horses bathe achingly muscles in a stream near Cannonsville, N. Y. Although the golden glow of a setting sun gives warm beauty to the scene, it marks merely the end of another day's homely toil to the weary-burdened beasts.

I suppose everyone is getting settled back to normal after the holidays or perhaps just resting after all the rushing and excitement. Santa Claus seemed to be very good to everyone here. I hope he was at your house, too.

ROLLING DOWN THE RIVER

Want to get the rest of the winter over with in a hurry? Drop in the bank and borrow some money on a ninety day note!

A fellow we know says that from here on in, he must watch his table manners a lot more closely. He's sporting a big lump on his nose, just because his wife caught him, this New Year's Eve, with a stewed chicken on his lap.

Come this time next week, we'll have a most important announcement because the Studebaker for 1952 will make its appearance. We saw it in Chicago very recently and it's certainly a beauty. But then of course all Studebakers are the world's finest and we have a couple of '51 models left, on which we'll give a most attractive trade-in allowance. If you are looking for the year's best buy, better hurry right over. It's amazing, the money you'll save!

All this snow reminds us of an ancient Indian that had gained local fame as a weather forecaster. Prior to a winter such as this, he forecast a heap big cold with plenty of snow. So when it happened, an amazed white man asked, "Tell me Chief, how did you know?"

"Easy," grunted the noble Redskin. "White man put up plenty of snow fence."

Well, we hope that your car has been starting on schedule these days and that you have taken proper care of all lubricants. Just in case you haven't, we are still doing business at the same old stand and are ever ready and willing to give you the best service, the best needs and the lubricants it deserves. There's a lot of water left, so perhaps it would be a good idea to let a critical eye over your car, just to be sure that everything is in proper working order.

That's that, but remember, fellows, it's 1952 and leap year. We know of any number of fine young ladies perfectly willing to cost their lot with some man, providing he has the cash to put a house on it!

Yours,
BOB KETTLER
