Visitors Spend \$407.046 At Michigan State Parks

State park visitors shelled out \$407,046 in small change last year mainly for hot dogs, soda pop and candy.

This was about \$60,000 more in nickels and dimes than in 1950, according to the conservation department's parks division.

Cookies shipped over the counter post; often at Dodge park number four where picnicers spent \$58,000. Other leaders were Grand Haven with \$34,000 and Holland with \$26,000.

The 22 concessions are not operated by the department. Leases presently are open to bidding for Missions, Laighton, W. J. Hayes, Steinhilber and Young parks.

New Type Table Designed By MSC Expert Saves Homemakers Steps

A new type of table designed by Olivia C. Meyer, extension specialist in home management at Michigan State College, can save you miles of walking and carrying supplies needed for baking, cleaning or sewing. It's a table on wheels with dozens of uses.

The table's large open top is an ideal place to do many things. It may serve as a working surface beside range, refrigerator, or sink. Because the open top is lower than the average kitchen cabinet but higher than an ordinary kitchen table, it is a satisfactory place for mixing, beating or rolling dough.

A leaf on either side folds out to provide a table, but when it is closed, a large deep wooden tray is designed to set on "the closed table top for holding things when moving supplies. Sides of the tray keep things from falling off when the table is moved.

A sliding lap board pulls out on either side to provide a place to sit down at work. The lap board is 23 inches above the floor. The wooden tray can be stored on the lap board when not in use on the table top. The lap board is an ideal place for a child to play with color blocks or modeling clay within sight of mother.

A low shelf with retainers on sides and ends to keep things from sliding off is a good place to put paper supplies. The handle used for pushing the table can also be used as a towel rack. A small drawer in the opposite end of the table provides a place for storing silver, napkins and place mats.

Supplies 18,000,000 Trees For Reforesting State

Exceeding the 1950 record production of nearly 14,000,000 trees, the conservation department supplied 18,000,000 seedlings and transplants for reforestation on private and state-owned lands last year. Close to 12,000,000 young trees from department nurseries went to farmers, schools and industries.

Justice Court Fines Two Motorists For Speeding

Two drivers paid fines and court costs on speeding charges in the court of Justice of the Peace John J. Schulte recently.

Nazareg Pace, 1645 Porter, Detroit, was convicted on a charge of speeding 45 miles per hour in a 25 mile zone on Grand River Avenue in front of the fireplace on the sun porch. It makes an ideal serving table beside the dining table. It can serve many needs beside the chair of the convalescent person. You will find it handy for holding sewing supplies or ironed clothes.

Complete plans for building the table with pictures showing many of its uses, together with further information about it, are available free at your county agricultural extension office or by writing Michigan State College, East Lansing, Michigan, for Extension Folder F-192, "Utility Table".
