Wish good luck to
Sergeant Hun Toon of Vermont
Rifleman, U.S. Infantry
— and 54 years old his next birthday!

FIRST WORLD WAR... SECOND WORLD WAR... KOREA—these are milestones in the career of this sturdy Vermont volunteer. A true son of America's original Minute Men, his whole life has been devoted to battling in defense of the land all of us love! Men like this are rare. And they deserve all the respect the rest of us can give.

Here's an idea. Today stop at your pay office—^{if} your company has the Payroll Savings Plan—or else stop at your bank. Buy your self an extra United States Defense Bond. And tell yourself you're showing an old soldier—a good soldier—that you appreciate what he's doing for you.

For your bonds, and other forms of saving, put a strong American economy behind a strong American army. They protect you, your family, and our servicemen overseas. Because they help create the productive strength that keeps us at peace today—when peace is only for the strong!

So how about wishing good luck to Sergeant Hun Toon—and more security to the family you love? How about buying an extra United States Defense Bond for them—today?

The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays you \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

PEACE IS FOR THE STRONG... BUY U.S. DEFENSE BONDS NOW!
