### ARTHRITIS—RHEUMATISM

Do you suffer the pains of arthritis and rheumatism? Do your shoulders, hands, knees, or feet pain you? Do you wake up mornings fatigued, actually more tired than when you went to bed? Do you feel depressed and down hearted, as though it were all impossible?

Well, dear friend, I have gone through all of this for twelve months, with very little relief after having carried on a program of treatment which cost nearly thirty dollars a month for several years.

During these last twelve months, however, I have found blessed relief, all without the use of drugs and at a cost of a few dollars a month. I cannot express my full appreciation for the marvelous improvement I have experienced.

If you will send me your name and address, I shall be very happy to give you a complete explanation of the nature of the product that has given me such wonderful relief.
