Senior Class Night
To Be Held June 10

Tuesday, June 10, will be class night for the 1952 senior graduates of Clarenceville High School.

It is presented by the seniors and their class will add prophecies to the feast. The students will be presented and each senior will receive a small gift from the class. The outstanding senior award and the senior band award will be presented by Mr. Miller and Mr. Markell.

The American Legion awards will be presented to the students on class night.

Editorial

Would you put your bicycle in the middle of the road for a car to smash? Would you take an axe and throw your watch to the ground in order to chop it to smithereens? Would you jump all over the dining room table at home? Of course not, you may answer. Why should I ruin my own personal possessions?

You answer "No," but every day at Clarenceville someone ruins the personal possessions of another student. All equipment around our school is the personal property of the students. When you ruin this equipment, you are ruining your property, you are taking something away from yourself.

As an experiment to see if athletic equipment could be left outside for the use of the community, track hurdles were left outside for the use of the community. The next morning the track coach found these hurdles smashed by a car and useless. It was not the cost that aroused the anger of all concerned. It was the fact that someone would ruin something that could be used for the benefit of themselves.

This is not the only thing that has been ruined. Ever in the past the football sledge was knocked apart while it was outside. The goal post at the end of the football field was torn down.

Pupils of the school are not suspected in these acts, but it is known that we are not as appreciative of what we have as could be. We run and jump on the gym floor, not being careful of it or any of the other property in this beautiful, new possession of ours. We hang on the stage curtains, we scratch the desks, we play on the typewriters, anything but use these possessions the right way.

If we would and could learn to use our equipment correctly in the manner in which we are supposed to, we would find that it would be to our advantage. Perhaps the gym could be left open without need of a chaperon. The track and baseball equipment could be left out for anyone to use at his convenience. The shower rooms and field house would be open for use with their equipment.

But because cute little pranksters must have fun breaking up things, athletic equipment preferred, we find ourselves without these advantages. It's too bad we can't learn to take care of our possessions; too bad we can't be using this equipment in hours out of school, knowing that the responsibility for them is entrusted to us with the feeling that we will take care of them. Will it ever be? It's up to each and every one of us to prove ourselves equal to the task of being able to take care of equipment. Then who knows what will be allowed to us?

A.A.

Eighth Grade Wins
Three Grade Meet

The eighth grade won the seventh, eighth and ninth grade track meet with a total of 73 1/3 points. Boys from the seventh grade through the ninth grade who were fourteen years of age or under were eligible to compete in the meet.

The seventh grade came in second in the meet with 48 1/3 points with the ninth grade. The boys who placed in the track meet received ribbons at the honors assembly Thursday, May 22. H.G.

Northville Exchange
Students Visit School

Thursday, May 23, three students visited Clarenceville from Northville High. They arrived at 8:45 a.m. The purpose of these students coming was to look over school over and notice how it differed from their school.

The student council furnished ice cream, potato chips and milk to go along with their lunch. The students left Clarenceville at 3:15 p.m. The idea of exchange students was decided by the League Student Council.

Exports of U. S. coal overseas in 1951 were the second highest on record, exceeded only by the 1947 level.

GAA MEMBERS
HOLD SECOND
ANNUAL BANQUET

The second annual G.A.A. Initiation Banquet was held in the gymnasium Wednesday, May 21. The theme was "Beautiful Lady," and toastmistress for the evening was Annie Allan.

A welcome and prayer was given by Annie Allan. After the dinner Joan Melton, president of the association, welcomed the new members into the club. A response to this welcome was given by Karen Russell. The guest speaker for the banquet was Miss Jean Siler.

G.A.A. sponsor of Edison Institute. Marilyn Burkin and Sally Satterfield then performed a tap duet. At this time, Joan Melton again took the floor to officially initiate the new members.

A piano solo of "Crescendo" and "The Dumbie Boogie" was given by Nancy Moore. Beverly Shaw, vice-president, presented awards to all girls that had earned them in the past year. The banquet ended on the strains of group singing led by Meribah Meyer. New members were Maureb Daley, Naomi Horton, Janet Loomis, Karen Russell and Gloria Schumacher.

SCHEDULE DANCE

The last dance of the school year will be held June 6th, 1952, by the Junior class. The name of this dance will be "Prison Break" and the decorations will be black and white.

Exchange Students
Report on School

The Student Council meeting of Wednesday, May 21, was held the third hour in room 103.

Wally Christensen called the meeting to order. Barbara Alsworth took the attendance and the treasurer's report was given by Jerry Carr.

May 15 four of our Student Council members, Chuck Edmonds, Ruth Mary Robertson, juniors; Russell Robitaille, senior, and Pat Storti, sophomore, went to Clarkson High School as exchange students.

Some of the opinions voiced in reports from them were: there was not much discipline in classrooms, the number of students per class was smaller and they were friendly. The school has seven hours a day, 15 minute periods in the morning starting at 9:00 a.m. and 50 minute periods in the afternoon lasting until 3:35 p.m. It is not known whether they have an eighth hour after school for punishment purposes.

The League meeting May 14 was held here at Clarenceville but only two other schools, Clarkson and Holly, participated. As not enough schools were here, the evening was turned into a social meeting. A sheet cake was served with chocolate milk and ice cream.

Surface mining, which accounts for 25% of America's coal output, is known as "open cast mining" in England.
