Logan act by trying to get certain U.S. officials appointed to foreign posts when it was not within his province to do so.

Another revealing angle is the manner in which Republicans in Congress apparently have been operating with General MacArthur for some time behind the back of the White House. March 1, 1951, when the cable was sent, was before MacArthur was fired and at a time when Truman had already warned him to refrain from meddling in state department policy in Formosa.

The White House had long suspected MacArthur of working secretly with ex-Speaker Joe Martin of Massachusetts to whom he sent the final letter resulting in his dismissal.

**THE POTATO PUZZLE**

A lot of people, especially housewives, have been wondering why they can't buy potatoes today when a year ago the United States was having trouble getting potatoes from Canada.

They recall mountains of spuds being shipped to Spain for practically nothing, whereas this year we are importing potatoes from Canada.

The answer is one which ought to please harassed Secretary of Agriculture Charles Brannan, for it proves he was right. Brannan took a terrific beating during the surplus potato years, but he was just as entitled to crop insurance as the aviation companies were to lush mail subsidies.

Today the potato shortage shows that crop insurance probably saved the housewife money in the long run. This insurance took the form of a price-sustaining price, makes a total cost farmer, as well as certain other farmers, 60 per cent of the parity price.

Cadet Corporal York Balcom was elected captain of the 1952-53 tennis team of the Missouri Military Academy at the annual Sports Banquet held May 21 at Moberly, Missouri, academy officials report. He is the son of Mr. and Mrs. York R. Balcom of 23212 Floral.

The coaching staff presented sixty-five letters and certificates to team members showing outstanding ability.

Several U. S. railroads each hauled more than 70 million tons of bituminous coal away from the mines last year.
