Educational Use Of TV How to utilize television in tea-ching, particularly for the atto-wide audience, was discussed ro-cently in a meeting held at Michi-san State Colleze. Tr. (many meeting held at Michi-san State Colleze. Tr. (many meeting held at Michi-erthed lift representatives from nine of the 13 colleges in Contral Michigan. Dr. funner told the group that for use by all educational and gov-ermenfal units. He said that TV has such tremendous potential for beedneid the use of the softime softime beedneid the use of the softime softime ances to build them.

Cabbage, could lower and, rad-ish, as well as other related phants, are attacked by the cabbage imag-got which works early in the sea-son before the plants attain much size, reports Willard E. Dosser-man, Assistant County Agricultur-al Agent.

al Agent. The standard treatment for cab-bage maggot is to moisten the soll around the roots with a solution of bichloride of mercury. Some times called corrosive sublimate The solution is made by dissolving

uggests Treatment

For Cabbage Maggot

The solution is made by dissidving one ounce of the poison in hot water and then diluting to eight gallons with cold water. Hait a teacupful of this solution should be poured about the stem of each cabhage or cauliflower plant at the time of solution within a day or two thereafter. It should be constantly borne in mind that corrosive sublimite is an extremely violent poison dangerous to all who handle it.
