

Daughters Of Isabella Sponsor Radio Program

Our Lady of Sorrows Circle 617, Daughters of Isabella, will sponsor a Cal-About-Town radio program featuring Mary Lee Lippincott of station WJLB at Farmington Town Hall June 13 from 2 p.m. to 3 p.m.

Proceeds of the program will go toward the Braille scholarship for blind students which the Circle is sponsoring at this time.

The general public is invited to attend the program.

Land Units On Sale For Appraisal Prices

Four building and land units not sold at recent public auctions now can be purchased at minimum appraisal prices from the conservation department's lands division at Lansing.

Saved from state game area additions and available are portions of the following: former Bickel farm property near Yandulla, Palmer farm near Middleville, Koop farm near Greenville and former Titt farm property near Big Rapids.

Five small units sold at auction produced \$9,230 for the game protection fund.

CORPORAL G. COHEA PUT ON INACTIVE MARINE STATUS

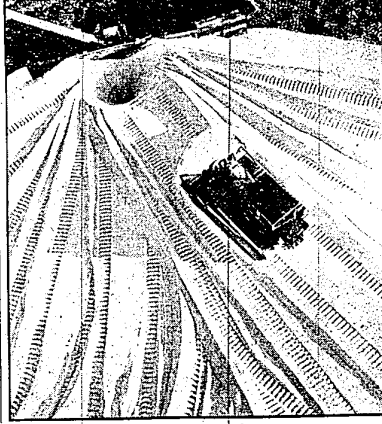

Marine Corporal Gerald R. Cohea, 21, husband of Mrs. Ruth Cohea of 2813 Charita, has recently been released from active duty under the Marine Corps reserve release program authorities at Camp Lejeune.

Monthly several thousand Marine reservists are being placed on inactive duty status until all those desiring release have been demobilized.

Shortly after his graduation from Reardon Union High School, where he was a member of the football, baseball, basketball and track teams in 1948, Cohea enlisted in the Marine Corps and served for one year. On discharge he entered the Reserve and returned to civilian life as an employee of the Water Company of Plymouth. In October, 1950, he was called to active duty and fought with the First Marine Division in Korea.

Returning "stateside", the Michigan Leatherneck reported to Parris Island, S. C., where he instructed recruits in rifle marksmanship. He then reported to Camp Lejeune, where he served with the Sixth Marines, an infantry regiment of the Second Marine Division.

He is the son of Mr. and Mrs. Russell Cohea of 15201 Santa Anita Street, Detroit.

UP THE HILL TO YOUR TABLE.—Cutting a swath along the hill, Caterpillar pushes salt to the loading pit in Baumberg, Calif. The salt pile is the result of sea water's being pumped into a diked area and evaporated.

MSC Men To Give Farm Demonstrations

Demonstrations on handling feeder calves and yearlings, pasture improvement, parasite control and selection of best breeding stock will be featured at a beef cattle field day in northern Michigan in mid-July. Michigan State College animal husbandry men are cooperating with Hereford cattle breeders of Michigan in arranging for the event on July 19 at the Prescott Ranch near Prescott in Ingham County.

This northern Michigan Hereford field day will be an all-day event, according to W. L. Finley, extension specialist in animal husbandry at MSC.

Sen. Charles Prescott has one of the largest farms in Michigan, 5,500 acres, upon which he has more than 1,200 head of Hereford cattle.

An outstanding speaker is being contacted for the event which will be of special interest to beef cattle producers in Michigan.

A record tonnage of coal — 41,880,000 net tons — was handled in 1951 by the coal-loading piers at Hampton Roads, Va., from coast-wise and overseas shipments.

14-Year-Old Michigan Duck Shot Last Fall

Probably the oldest and toughest duck shot last fall in the Great Lakes area was a 14-year-old mallard, judging from a band and band report just received by the conservation department.

Duck number 37-622149, banded on Munuscong bay in 1933 and reported banded on Wisconsin's Hooker lake last October, is estimated by game men to be at least 14 years old since the drake was an adult when banded.

Floral Park Civic Association News
W. L. Burke
Phone Farmington 1056-J

I'd like to remind you residents of this area that we welcome your attendance at our regular monthly meeting. They are held on the first Monday of the month at eight o'clock at the Floral Park. The meetings are presently being held in the refreshing and comfortable surroundings of the Mark Sitts residence back porch at 22490 Floral Avenue.

Our June Meeting was held the Monday before last and in the next few paragraphs I'll let you know what your Civic Association is doing. Your improvements committee gave a report on the tree spraying job that has recently been completed. The committee advises that the tree man pointed out a number of dead, or virtually dead, trees in the area and advised their removal. If you have a tree to be removed and it stands between the sidewalk and the street, call the Municipal Building and ask that it be removed. This may not be able to get at it right away, but the city has contracted the tree removal work and the more serious ones will be removed first.

The improvement committee further reported that we will have to wait until after the next Council meeting to hear the circulation of street paving petitions. It seems that the new City Charter lacks the inclusion of an article which will empower the City Manager to levy special assessments for paving purposes. At least that is what the City Attorney and Manager have found. We will be at the next Council meeting to see what can be done about the lack.

The restrictions committee has checked into a number of violations of City and state laws applicable to local buildings. Through their efforts the city has recently refused the right, to a local business, of taking over residential property and using it for a purely commercial purpose, right in the middle of a residential zone area. Another business has been given thirty days in which to comply with the provisions of the Zoning law, or which time, if the law has not been complied with, the business will no longer be allowed to function. The committee is corresponding with the State Department of Health in order to force the compliance with state health laws upon a local store. The business has no toilet facilities for its employees. That unsightly tank on Grand River within the City Limits has been checked into and the City has made several attempts to do something about it. We feel the thing is a fire hazard and health hazard. We are also concerned about the fact that small children are frequently seen playing in it and more than once they have hit small flogs there. The committee recently wrote to the gentleman who owns the property, and respectfully requested that if the structure could not be brought up to required standards that it be torn down. We offered to tear the structure down with our own labor, and to refurbish the lot so that it would not be unsightly. We have never received even an acknowledgement from the owner, so now we are going to ask the City Manager what action can be taken to remove this unsightly mess from the neighborhood.

Jim Tennant advises that the bridges for the corner crossings in this area have been ordered constructed and expects to satisfy our desires in this respect in the near future.

If you have a pile of rubbish to dispose of — too big to put into containers for the rubbish men to pick up — you may haul it to the city dump where it is easy to dispose of. When you are ready to

dump it, drive up to the office of the Public Works department (next to the police department) and obtain the key to the dump grounds gate. If you don't know where the dump is, they will tell you. If you have fill-dirt or rock and stone to get rid of, the Public Works foreman will be glad to have you dump it down the hill at the corner of Shiawassee and Power. As most of you know that is a bad corner and the city is backfilling the southwest corner of the intersection and plans to straighten out the bad job in the road. It's a good project.

If you haven't had half as much trouble finding a parking space upon these days — those parking meters sure have helped, and the city gets some needed revenue as well. It's mighty impressive — 12 minutes for a penny — and you can do a lot of shopping in 12 minutes.

That's it for now. Keep your eye on future issues of The Enterprise — be informed — it's worth your while. See you later with more Civic Association news.
