## BIRD SCARCITY IS EXPLAINED BY WARM WEATHER

Duck hunters who are wondering what happened to waterfowl during the late days of Michigan's season will be interested to learn the birds arrived in southern Michigan shortly after the season closed.

At least 377,300 were counted during the conservation department's annual post-season aerial census conducted recently over Saginaw Bay, Lake St. Clair and the Detroit River - Lake Erie waterfowl concentration areas. Count estimates have been made over the three areas at the end of each season since 1947.

Most of the ducks were seen on the southern areas, broadbills by areas showed 175,300 on Lake St. Clair, 172,800 on the Detroit River - Lake Erie area, and only 28,700 on Saginaw Bay. Also, observers counted about 1,000 coots, 225 geese and 315 swans.

In order of abundance, the ducks were scaup, canvasbacks, redheads, blacks and mallards, with a scattering of mergansers, golden-eyes, buffleheads and ruddy ducks also noted.

Many observers feel that generally warm weather during most of November slowed waterfowl migrations from the north and contributed to poor hunting during the final week of the season.

## Postmaster Habermehl Calls Attention To Special Christmas Card Labels

Postmaster Charles A. Habermehl said this week that Post Office employees have shifted into high gear as the volume of Christmas mail is mounting sharply.

"What before it was uneven and unpredictable," he explained, "the packages and Christmas cards are now arriving in a steady flow. This coming week end is especially critical."

By "critical" the Postmaster means that delivery of parcel post by Christmas cannot be guaranteed after Friday. He recommends you "use Air Parcel Post for gifts mailed out of town."

Christmas cards going out of town should be mailed immediately. Those for local delivery at least by Saturday.

Postmaster Habermehl points out that thousands of packages are now on route from all 48 states. They will create an even greater strain on local Post Office facilities.

However, as many daily deliveries as are necessary will be made between now and December 25. But a sudden storm can delay the Christmas mail to and from any part of the United States.

Consequently, the Postmaster urges you to forget about sending everything at once. Mail your packages two or three at a time. Tie your Christmas cards in five bundles, and attach the special postal labels marked "ALL FOR LOCAL DELIVERY" or "ALL FOR OUT OF TOWN DELIVERY."

"Ask for these labels," the Postmaster said, "when you go

**State Lists 15 Hunters Killed During Season**

At least 15 persons were killed and 63 wounded by gunshot during Michigan's 1952 deer season, November 15 to 30, according to reports received by the conservation department.

However, either of those two figures could increase during the next few weeks as department officials emphasized that field reports on all accidents would not be complete for at least a month.

Those who died in traffic accidents, by drownings and heart attacks, though often listed as hunting victims, were of course not included.

Last year, 13 persons were killed and 54 wounded during deer season. In 1950, the total was 18 killed, 55 wounded - highest in recent years. Since 1940, the average number of persons killed by gunshot during deer seasons stands at slightly more than 13.
