HELP WANTED

With the ever increasing need for trained professional services this question is asked at all ages. There has seldom been a little girl who didn't enjoy putting her dolls to bed and playing nurse. This little patient at Cook County Hospital in Chicago is no exception. She is told her favorite nurse "I want to be just like you."

Secure studies prove that the graduate nurse also makes a wonderful wife and mother, and is invariably a leader in her community. The University of Illinois-Cook County School of Nursing has been recognized by the American Association of Colleges of Nursing as "The Best of the Best."

Hundreds of young women - young men too - find student life stimulating in Chicago's great Medical Center, and its recreational facilities. The school is in a beautiful home town would offer. A four and a half year course will also lead to a Bachelor of Science degree in nursing from the University.

With its 1953 model Cadillac enters a second half-century of engineering and styling leadership in the building of automobiles.

Clean, uncrowded feed lots and clean feeding and watering equipment are among the best safeguards against coccidiosis in feeders, MSC specialists remind.

Every officer in the department will attend one of the schools, each of which will be of five days' duration. "The first five will be for command officers and will be completed February 13. The other nine schools for troopers will be held between February 23, and May 8."

Originally the opening school was scheduled for the first week in December, but was postponed when the State Police were called upon to collect the ballot boxes in the recount for governor. With the cooperation of local police and sheriff's departments, a 24-hour guard also was maintained until the recount was over.

Command officers' schools are being attended by detectives, corporal sergeants, lieutenants and captains. Lectures and panel discussions will be aimed primarily at command responsibilities. Classes for troopers will emphasize highway patrol and general police work.

Each school will accommodate about 60 officers selected according to geographical location so as to keep the number of officers taken from each area at one time at a minimum.

Only four more weeks remain in which to get entries in for the City of Detroit's 1953 W.B.C. Championship Tournament to be held in Detroit next spring for the first time in 25 years. This opportunity may not come to the women bowlers in this area again for that number of years. Certainly, every woman should grasp the opportunity before it is too late. Entries will close February 15.

The City of Detroit is squarely behind the Detroit Women's Bowling Association in the status of this great event. Miss Mary Beck, president of the Detroit Women's Bowling Association, is honorary chairman of the tournament committee and has been a staunch supporter of the women bowlers in the city. She has accompanied the delegates to the past convention in St. Paul in 1950; Seattle in 1951, where Detroit was awarded the 1953 convention; and St. Louis in 1952 where Miss Beck greeted the convention and extended a welcome to the delegates from the City of Detroit. Mayor Cobo and other city officials, as well as the convention bureau of the Board of Commerce, are also cooperating to make this the outstanding tournament of WIBC history.

Hotel Fort Shelby is the headquarters hotel in Detroit. Two blocks away, at the Detroit Recreation, the tournament will begin on April 9, 1953.

There are two divisions in the tournament, one for teams having averages of 701 and over, the "regular" division; the other, teams having averages of 700 and under, the "booster" division. High and low average bowlers may bowl together on the same team.
