

LAKE TROUT REPORT INDICATES CATCH FROM 1950 PLANTING

The report of a lake trout taken from the Sturgeon River below the dam at Wolverine brought sharp interest from fish specialists this week, the conservation department notes.

The fish was taken by Bronislaw Prach, Detroit, late in May.

Believed to have migrated from an original planting of lake trout introduced into Mullett Lake, Cheboygan County, in 1950-51, the fish was about 23 inches long and weighed 3 1/2 pounds and was etched, indicating that it had come from the 1950 planting.

To reach the dam at Wolverine, the fish had to swim the Indian River, enter Bart Lake and swim 11 miles up the Sturgeon.

Farmington Girl

Scout News

The executive committee is having their last meeting until September today at the home of Mrs. Harrison. It is to be a pot luck with the complete committee attending.

Our come ye Girl Scouts, Come to Day Camp with me And bring your friends all three, To our big jamboree. Send in your dollars now And sign up for days of fun And we'll be jolly friends For evermore.

Our Lady of Sorrows held a combined Court of Awards on June 11 in the Farmington City Park. Mrs. Marie Harrison was master of ceremonies with Mrs. George Nahant speaker.

Troop 175, under Mrs. Kenny and Mrs. Bush, covered coat hangers with velvet for the altar boys' cassocks. Most of the girls received Scout's highest honor of Curved Bar to Anne Fredericks and Ann Woods.

Troop 175, under Mrs. Quinlan and Mrs. Leonard, proudly presented Scout's highest honor of Curved Bar to Anne Fredericks and Ann Woods.

Troop 176, under Mrs. Walters and Mrs. Thornton, received second class badges.

Linda Kay received Curved Bar for her good work in winter sports, games, and good grooming badges.

Mrs. Kenny is leaving Scouting after seven years. Much to her surprise the leaders of our Troop and the girls presented her with a farewell gift.

The Arthur Muirs, the Louie Jennings and the Reddys are attending a theatre performance in Detroit this Saturday night.

COUNCIL PROCEEDINGS

The regular meeting of the City Council was held June 15, 1953. Meeting was called to order by Mayor Loomis at 8:10 p.m. Roll Call: Cavanaugh, Conroy, Lindbert, Loomis and Nourjian. All present.

Minutes of the regular meeting held May 25, 1953, were read and approved.

Motion made by Conroy and supported by Lindbert that the City Manager appoint Godfrey Gagnon as Police Officer and Constable assigned to the Municipal Court, that he furnish a statement of fees periodically and that said fees be paid by the City Treasurer.

Motion carried, all yeas.

Motion made by Conroy and supported by Lindbert that James Tennant be authorized to have the Howell Construction Company repair Shawanaw Road between Prospect and Lakeway in front of the new Farmington High School on a time and material basis; work to be checked by James Tennant at least twice a day during construction. Motion carried, all yeas.

Motion made by Conroy and supported by Lindbert that petition for extension of the city water line to service residents of Westhill Road, Farmington Township, Michigan, be placed on file.

Motion carried, all yeas.

Motion made by Cavanaugh and supported by Conroy that the Grand River frontage on the north side between Orchard Lake Road and Mooney Avenue to a depth of 406.73 feet from the center of Grand River Avenue be changed to Industrial. Motion carried, all yeas.

Motion made by Cavanaugh and supported by Conroy that no building permits be issued in the Warner Farms Subdivision until a Master Plan of the entire Warner Farm showing lot sizes and showing the relation of the Warner Farms Subdivision No. 1 to the over-all picture, is furnished the City Council. Motion carried, all yeas.

Motion made by Lindbert and supported by Nourjian that bills presented for the month of May, 1953, be paid.

Roll Call: Lindbert, Nourjian, Cavanaugh, Conroy and Loomis. Carried, all yeas.

Motion made by Lindbert and supported by Conroy that meeting be adjourned.

Meeting adjourned at 12:00 Midnight.

Cheese Balls Add Food Value to Salad

BY DOROTHY MADDOX

WE all turn to salads when the weather gets warm. If salads include some form of protein such as cheese, eggs, fish or meat, they can be used as main dishes for luncheon.

Here are two main-dish salads and a delicious buttermilk cole slaw.

CRISPY CHEESE BALLS

(Makes 8 balls, about 1 1/4 inches in diameter)

One package (3 ounces) cream cheese, 3/4 to 1/2 cup candy-coated "puffed" cereal.

Form cheese into balls and roll in cereal. Serve with pineapple, orange, or other fruit salads. For an attractive salad, center 2 or 3 crisp cheese balls on lettuce or other salad greens. Arrange fruit sections in swirls around the cheese balls.

BUTTERMILK COLE SLAW

Shred a head of crisp cabbage very thin. Then slice thin 2 small onions, 5 or 6 stuffed green olives, and add with 10 cups to the cabbage. Salt to taste.

Dressing: Use 1 teaspoon salt, pepper to taste, 1/4 teaspoon paprika, a very little curry powder, 1 teaspoon caper juice, 1 teaspoon Worcestershire sauce, and 1/2 cup mayonnaise. Next add just enough buttermilk to make it as thick as cream. Toss dressing and salad until thoroughly mixed.

TOSSED MACARONI SALAD WITH BLEU-CHEESE DRESSING

(Makes 6 servings)

One tablespoon salt, 3 quarts boiling water, 8 ounces elbow macaroni (2 cups), 1/2 medium-sized head lettuce, shredded, 1/4 bunch chichory, broken in pieces, 2 medium-sized tomatoes at 1 wedges, 2 tablespoons chopped onion, 1/2 cup chopped celery, 1 green pepper, cut in thin strips, 1 1/2-cup package bleu cheese, 2 tablespoons vinegar, 2 tablespoons lemon juice, 1/2 cup salad oil, 1/2 teaspoon meat sauce, 1/4 teaspoon garlic salt, 1/2 teaspoon salt, 1/4 teaspoon freshly ground pepper, paprika.

Add 1 tablespoon salt to rapidly boiling water. Gradually add macaroni so that water continues to boil. Cook uncovered, stirring

These crispy cheese balls will turn any kind of fruit salad into a main dish for an attractive summer meal.

occasionally, until tender. Drain in colander. Rinse with cold water and drain again. Chill. In a large salad bowl, combine chilled macaroni, lettuce, chichory, tomato wedges, onion, celery and green pepper; toss lightly but thoroughly.

Chill. Crumble bleu cheese. In a small bowl, combine bleu cheese and remaining ingredients; mix thoroughly. Add bleu cheese dressing to chilled salad; mix lightly but thoroughly.

New Driver Licensing Procedure Bill Sent To Governor Williams For Signing

BY ED ALCHIN

The new driver licensing procedure approved by the legislature and now on the way to the Governor is a major victory for the legislature's "Little Hoover" committee on state reorganization and for those interested in increasing highway safety, such as the Michigan Press Association, Michigan Automobile Club, Detroit Traffic Safety Association, Citizens Research Council of Michigan and others.

The 1952 report of the "Little Hoover" group death at great length with the seasonal loads in driver licensing issuance, the added cost of having both the state police and the Secretary of State's office concerned with driver licensing, and the lack of a place where the driving records of all motorists could be kept.

The newly approved bill, introduced by Rep. Leonard E. Wood (R-Wayne County) is intended to correct these deficiencies.

First, it ends divided responsibility for administering the vehicle code by placing driver and vehicle services under the secretary of state.

Second, the bill directs the creation of a central file of all licensed operators to provide an "individual historical driving record for each person" bearing on his violation of the driving laws.

Second, the bill directs the creation of a central file of all licensed operators to provide an "individual historical driving record for each person" bearing on his violation of the driving laws.

Serves In Korea

Pvt. David A. Dirmeyer, son of Mr. and Mrs. D. Dirmeyer of 31595 Alameda, is serving with the Ninth Regiment of the Second Infantry Division in Korea.

Dave is well known in the Farmington area, having starred as a basketball player for Farmington High School.

In preparing rhubarb sauce, remember that the fruit should be cooked as short a time as possible to retain the most of the fresh fruit flavor — the more aroma in the air the less flavorful the sauce, remind nutritionists at Michigan State College.

Civil Defense authorities point to cool mine safety teams as ideally trained for first aid and rescue work.

Now is the time that farmers should be thinking about and preparing for the hay harvest season, which looks like it might be a little early this year.

Farm visits last week showed alfalfa to be well along towards the first blossom showing in about 10 days, which means that alfalfa should be ready to harvest soon after the tenth of June.

This means that farmers should get their equipment and tools ready for the job during this hot time in corn planting and the hay harvest. Check over all moving parts of the machinery, mower, cutter bars and knives, hay chopping or loading equipment and blowers, and unloading equipment.

Time spent in this direction now may mean one-half day to one may saved right when you need the time most.

In harvesting hay, remember this, that if you wait until the first field is in the tenth bloom or a little later, some of the hay that you will harvest will be too late.

It's better to start with the old stands that will be plowed down for corn next year, as soon as blossoms show in the field, thereby harvesting the last field before it gets into full bloom.

Operators' fees are increased from \$1.25 to \$1.50 for three years. A first license costs \$3.00, however, to reflect the added cost of examining and paper work for original licenses. Local treasurers will get \$1 of the \$3 and 50 cents out of each \$1.50, instead of the former 25 cents out of the \$1.25.

Why not be sure that your property is properly and adequately insured. Call this Agency To-day.

LAVERY INSURANCE AGENCY 30760 Grand River Near 10 Mile PHONE 2210

Beavers give birth to their young once a year in late spring. Generally, from two to six are born, though the average number is four. At birth they weigh about a pound each and are able to swim, but cannot drive because the air trapped in their fur makes them too buoyant.

Coal from Kentucky's mines is used in at least 30 states and most European countries west of the Iron Curtain.

ROLLING DOWN THE RIVER

By Bob Kettler

Fellow in the garage the other day told is this story and of course we'd feel that we were neglecting our duty. It didn't pass it on. Seems a fellow joined a particular service club and at the first dinner meeting was much surprised to hear a number called out, "number 79", upon which the members burst into gales of laughter. A short time later another member called out "number 26" and again the club roared. Much mystified he asked the man seated next to him the cause of all the mirth. "Oh, we save him from here," he said. "He's a book, in which every joke is numbered, so instead of telling the whole thing, all we have to do is call the number."

So the new member went forth, got himself one of the books and was all set for the next weekly meeting, wherein, shortly after the members were seated, he called forth, "number 17" and was greeted with a dead silence. Puzzled by the reaction to his joke, he again asked the man who had helped him the man what had happened. "Oh that's easy," he was told. "He was first admitted to the club, that you were a lousy story teller."

Well, we're sort of a lousy story teller too, when it comes to describing all the finer points of the Studebaker for 1953. Trouble is, there are so many of them, we forget most and can only remember to say for sheer beauty, absolute dependability, downright comfort and out and out economy, you can't beat the Studebaker. We should know; we've driven one for thousands of miles, but more than that we know what our customers tell us of this car. They think it's wonderful and when you get right down to cases, it's their opinions that count the most. Come on in and drive one, you'll be truly surprised at the car you've missed all these years.

Now a certain lady that takes particular care of her car was in the shop today for a periodic check-up and while here stopped to tell us of the first outdoor movie their little 5-year-old had seen. The picture was a bit dull and lifeless and filled in spots with love, which didn't appeal to the cowboy characteristics of the child. Finally, when the picture neared its half-way point she turned to her mother and said, "Mommy, do you really care for that channel?"

Seems to us that Hollywood is going to have to look to its laurels to please the coming generation and by the same token, you're going to have to look to the boys in our shop to please that car of yours. Especially if you haven't given it that spring and summer lubrication it so richly deserves. A bit of a tune-up will help too, in keeping the motor fresh, youthful and healthy, capable of miles and miles of vacation driving. Better do it at once.

That's that, but we heard of a tourist in Detroit that asked a man on the street the way to Briggs Stadium. "Straight down," said the disgruntled fan, "the Tigers have gone to the devil."

Yours, BOB KETTLER
