

when the gang comes over on Mother's Day hand Mom the observer want ads

No, we don't want your Mom to look for a job -- we want her to look at the Observer Want Ad "Personal" columns and find your greeting to her.

That's right, we're giving you a chance to say "Hi Mom, I love you!" in print for just one dollar. You can't beat the price and she'll probably get a kick out of having a message to her printed in her hometown newspaper.

Then, when she's through with the want ad section -- YOU can look for a job.
