Front Line Photographer In Korea

Army PFC Robert Erickson writes descriptive captions for pictures he has just taken from a front line trench in Korea. He is a photographer in the 43th Infantry Division's Signal Company. His parents, Mr. and Mrs. Richard J. Erickson, live at 33714 Kirby Avenue.

CLARENCEVILLE NEWS

Mr. and Mrs. Carl C. Kogal, Sr., of Clarenceville, returned early last Sunday from New York City where they attended the annual Shrine convention along with some Sun Soles and their ladies from Mason Temple of Detroit. All were quartered at the Hotel Waldorf-Astoria while in New York. Transportation was by a 10-car special train called the "Pulver Puffer". A two-hour tour was made at Niagara Falls on the return trip. Plans are already in the making for the 1954 convention in July at Atlantic City. Many beautiful gifts were given the Soles and their ladies by Potentate and Mrs. Fuller.

Miss Elmore Hazen from Elkhart, Indiana, and Mr. James Lee of Fremont, Ohio, and Elkhart, Indiana, spent the week end with the former's parents, Mr. and Mrs. Harold Hazen on Sunday.

Mr. and Mrs. David Walker and family of Orionville spent Sunday with Mr. and Mrs. Harold Hazen of Sunnyside.

Mr. and Mrs. Dille Walker and daughter Bertha Mae visited Saturday evening at the home of Mr. and Mrs. Harold Hazen on Sunday.

Students Spend Summer Studying At College

Sixteen students from Oakland County are attending Central Michigan College this summer. They are Patricia James, Auburn Heights; Anne Ruth, Farmington; Janet King, Ferndale; Helen and Margaret McCormick; Holly; Lois Holliday, Lake Orion and K. Rosemary Landley, Oxford.

Others are Yolanda Grimaldi, Donald Montney, and Juanita Wallace, Pontiac; Janet Davis, Royal Oak; Robert Aldrich, Robert Brown and Ella Held, Walled Lake.

ENGINEERS OFFERS SAFETY HINTS FOR TORNADOS

Do you know what is the safest place during a thunderstorm? These suggestions on what to do when a thunderstorm comes are from Harvey E. Kappahn of Michigan State College's agricultural engineering department.

Don't go out of doors or stay out unless it is necessary. Stay inside a building where it is dry, preferably away from fireplaces, stoves, and other objects made of metal. In all cases stay away from open doors and windows.

If you're outside and have a choice of shelter, the best place to go is a large metal or metal frame building. In line of choice the next best is a house or other building that is protected against lightning. Next best is a large but unprotected building and last, a small unprotected building.

If you have to stay out of doors, keep away from small sheds and shelters — if they are in an exposed location. Also, keep away from isolated trees, wire fences, billboards and wide open spaces.

It's a good idea to seek a shelter in a cave, a depression in the ground, a deep valley or canyon, the foot of a steep overhanging cliff, dense woods or a grove of trees.

K. Of C. Council Wins National Trophy Award

George F. Monaghan Council No. 2090, Knights of Columbus, was awarded a trophy by the Supreme Office for the second greatest membership increase in the United States in the past year.

The Council owns and occupies spacious clubrooms at Lesure and Grand River and number 2,700 members, largest in Michigan.

Arthur J. Murphy is immediate Past Grand Knight, and the newly-elected Grand Knight is Fred A. Chevillat. Harry V. Lencione is membership chairman.

Camper Takes Pictures Of Two Food Thieves

Thieves made off with some food belonging to a camper at Harrisville state park recently, but the camper didn't mind too much, and actually considered himself repair in full when he was able to take two pictures of the culprits.

The outlaws raided the camp successfully the first evening, but on a return trip the following night they paid with celluloid portraits.

The camper, however, had to sit up until the wee hours of the morning to get flash pictures of the two masked bandits — a pair of hungry rascals.

Five of the 50 biggest coal mines in the United States — in 27 states, more than half of all that has been produced in the United States to date has come from 164 large fields in 14 states.
