

TIPS ON HANDLING FAMILY PROBLEMS OFFERED BY U-M

Two new booklets designed to help parents with various family problems were published recently by the University of Michigan Extension Service. The issues are first in a series of pamphlets which will be published from time to time.

"Parents' Exchange" and "Life in the Family" are composed of ideas and experiences contributed by Michigan parents, and are being distributed to provide a means of exchanging solutions to problems encountered by parents of all ages and families of all sizes. Some of the ideas were expressed in classes and institutes sponsored by the U-M Extension Service.

Names of books written by qualified advisors on how to understand and treat children are listed in "Parents' Exchange".

The "Life in the Family" series consists so far of two leaflets, "When There's Work To Do" and "When Your Good Child Seems Bad". Others will be published later.

Single or multiple copies of the pamphlets may be obtained for a small fee by writing the U-M Extension Service, 4521 Administration Building, Ann Arbor.

You can tell in an instant it's a Very great 8

At idling speed, the engine of this 1953 Buick is deceptively docile. All you hear is a silken whisper, a kitten purr, a smooth flow of air channelling quietly through metal passageways. Then - you want to go. You nudge the pedal. You go. That's when you discover that you're sitting behind an engine of electrifying response. That's when you begin to know how the power of the first Fireball V8 can handle getaway, cruising, hill-climbing. That's when you learn what Buick's highest-compression engine in fifty great years can mean in spirited and soul-satisfying road command. It's an experience too wonderful to miss - the

bossing of this brilliant new V8 Engine that powers every 1953 Buick SUPER and ROADMASTER. So we cordially invite you to come in and try it. We cordially invite you to hold rein on this truly advanced V8 - the world's first V8 with vertical valves, with "T" type intake manifold, with zero-power-loss muffler - and the first standard-production American passenger-car engine to reach 8.5 to 1 compression ratio.

Why not come in for a sampling? That way you can also try the other Buick gems - like Twin-Turbine Dynaflow - and the Million Dollar Ride - and the room and visibility and handling ease of the greatest Buicks yet. Can you make it this week?
