

Drivers' Licenses

(Continued from Page One)

present license is due to expire on April 10, 1954, and your birthday is June 15, your license will continue effective until the June date.

Officials admit that the new change may cause some difficulty until everyone has a license under the new system. Drivers whose birthdays occur after the expiration date on his license might have trouble in other states where policemen are not familiar with the Michigan law. Mrs. Snyder urges all drivers in this category to report to the License Bureau in the Municipal Building and have the new expiration date marked on the license and officially signed.

Another change in the law is the new rate for driver's licenses. Effective now, minor's restricted licenses will cost \$1.00; first regular Michigan licenses will run \$3.00 with renewal licenses set at \$1.50. Persons desiring more information on the new driver's license laws are requested to call Farmington 9054.

More than one-fifth of all bituminous coal consumed in the U. S. is used to produce iron and steel.

It has been 25 years since Lloyd Brazil, University of Detroit's great halfback, was named as the school's first All-American.

NEW POLICE CAR DELIVERED TO CITY SATURDAY

A new "special package" police car was turned over to the city police department on Saturday, replacing one of the older units.

The new car was placed in service immediately on road patrol. Special fluorescent markings will be added on the side of the car this week.

Extend Time Limit

(Continued from Page One)

tank trucks for the filling of the boilers and auxiliary tanks at the school. In the meantime negotiations are continuing for the securing of a regular supply of water.

The contract for the extension of Omsus Street south of Junction has been awarded to Smith - Andrews Construction Company at a cost of \$3.00 per foot plus culverts. The road is being extended to give an inlet and outlet to the Westbrook School. The superintendent was directed to forward the copies of all bids as well as the resolution awarding the contract to the Farmington Township Supervisor. The Township Board has agreed to share the cost of the project with the School District.

Ford Company Study Awards To Be Made

Employees' Children Eligible To Study

The fourth Ford Motor Company Fund competition for four-year college scholarships, open to sons and daughters of Ford Motor Company employees, was announced recently by William C. Pine, the Ford Motor Company director.

The Ford Motor Company Fund is a non-profit corporation completely independent of the Ford Foundation. It was organized for educational, scientific and charitable purposes and is supported principally by contributions from Ford Motor Company.

"As in the first three years of the program, the scholarships will be awarded to tuition and partial living costs at an approved American college or university a winner may select," Mr. Pine said.

"The Fund also will contribute an annual \$500 cost-of-education fund to privately endowed colleges or universities for each scholarship winner in attendance."

Under terms of the scholarship program, the Fund makes a contribution to the college selected by a winner. The amount is sufficient to cover general tuition and academic fees and the cost of room and board for the normal academic year, to the extent of \$300 in the case of a student living at home, or to the extent of \$0 per cent of the reasonable cost of room and board to the maximum of \$750 in the case of a student living at home.

High school seniors who are sons or daughters of full-time Ford employees in the United States and who finish high school or its equivalent between Sept. 1, 1953 and the 31st of August in scholastic standing in the top third of the class are eligible to apply for a scholarship.

The parent must be on the Ford payroll on Dec. 31, 1953, with continuous service since Jan. 1, 1952. However, if a parent of a scholarship winner leaves the company after the scholarship has been awarded, the scholarship will not be interrupted for that reason.

In addition, the sons and daughters of former Ford employees, now deceased or retired, are eligible under certain conditions.

Applications from eligible candidates must be received by the Ford Fund scholarship office in Dearborn not later than December 15.

Those applying will take the Scholastic Aptitude Test given by the College Entrance Examination Board on Jan. 2, 1954. The examinations will be held in major cities throughout the country so that no applicant will have to travel more than 75 miles.

Candidates will be reviewed by the Ford Motor Company Fund Scholarship Board which will determine the award winners on the basis of test scores, class standing, recommendations of high school principals and senior counselors, and other factors.

Results will be announced in the spring of 1954.

Two-way radio communication is now in common use in bituminous coal surface mines in the United States.

In nine games from 1940 thru 1952 Wayne University scored only 27 points against the University of Detroit while absorbing nine defeats.

POLICE ARREST SEVEN DRIVERS OVER WEEK END

Three drivers were arrested for driving while under the influence of liquor, two for speeding and two were apprehended for reckless driving in the vicinity of Farmington over the week end.

Joseph A. Heckman of 32625 West Eight Mile Road was arrested after the car he was driving struck the rear of another vehicle at Maple and Grand River. He was later fined \$100 and \$25 court costs and had his operator's license revoked.

Another person to be arrested for driving while under the influence of intoxicants was Stanley J. Ewers of 21484 Power Road. At the time of his apprehension Ewers was driving without headlights, brakes and an expired operator's license. He, too, was fined \$100 and \$25 costs.

Probably the most spectacular accident over the week end took place at approximately 10:30 p.m. Friday night when a car driven by Leonard G. Freidli of 3025 Grand River struck and damaged four parked cars on Grand River across from Farmington Recreation.

Freidli was arrested for driving while under the influence of liquor. He pleaded not guilty before Municipal Judge John J. Schulte on Saturday morning and hearing has been set for Friday, October 9.

John Sweet of 1566 Fort Park Court in Lincoln Park and Kenneth R. Jamesfield were arrested on reckless driving charges. Both paid fines of \$40 and Jamesfield paid an additional \$10 for driving with an expired license.

Two persons, William W. Landreth of 23259 Rockcastle and William Glendening of 638 Wolverine Drive in Walled Lake, were both fined \$50 for driving with excessive speed. Landreth was arrested for traveling 80 miles per hour in a 35 mile per hour zone.

Farmington GI Receives DSC

Army Sergeant First Class James W. Dooley of Farmington recently received the nation's second highest combat award, the Distinguished Service Cross, for courageously protecting a wounded comrade from an exploding grenade in Korea. Son of Mrs. Evelyn Cordone, 21844 Colgate, SFC Dooley was cited for extraordinary heroism in a day-night raid by Company E of the Third Infantry Division's 65th Regiment before the cease-fire. He was with an assault party engaged in hand-to-hand combat with Communist troops on the slopes of Hill 412. During the fight he continually exposed himself to intense enemy fire to hurl grenades into Red caves and bunkers. Informed that a comrade had been wounded further up the hill, SFC Dooley charged up the slope under a heavy barrage of mortar and artillery fire. As he reached the wounded soldier, a grenade landed only a few feet away. Throwing himself on top of his comrade to protect him from flying fragments, SFC Dooley took the brunt of the grenade's explosion. He then carried the soldier back down the slope to safety.

City To Conduct

(Continued from Page One)

stated that another survey will be conducted with the view of making possible recommendations on parking restrictions along Grand River. DeVriendt stated that there are several locations which, on the basis of accident reports, may require some parking restrictions.

RECOMMENDATIONS on both the lighting and possible parking restrictions are expected to be presented to the City Council at its next regular meeting. DeVriendt stated that there has been a steady increase in accidents involving parked cars during the past year, especially at night. Officials pointed out that the increase tends to emphasize the growing need for additional off-street parking in the business areas.

John Oliver Takes Part In NATO Exercises

John V. Oliver, seaman, USN, of 298 Tuck Street, is aboard the landing ship USCGC Cowi Grande taking part in the joint NATO training exercise "Weldfast."

Weldfast is aimed at testing and strengthening the readiness of land, sea and air forces to operate and maneuver in the defense of Allied Powers Europe's Southern European and Mediterranean Command areas.

United States, British, Greek, Turkish, and Italian forces are participating in the large-scale operation.

The exercise is expected to end this week.

The University of Detroit line has given up only 48 yards rushing to the opposition in the first two games this season.

Show Stress On Grass Use

Although June marked the completion of the statewide Grass Days program, farmers still will be getting valuable tips on grassland farming.

There will be Grass Institutes this coming winter points out E. D. Kuhn, state leader for agricultural programs at Michigan State College.

Tentative plans are for nine Grass Institutes in the lower peninsula — the sixth number of last year — the last week of February and the first week of March. The plans call for institutes on February 23, 24 and 25 in western Michigan; on February 26 and March 1 and 2 in eastern Michigan; with the final three on March 3, 4 and 5 in northern Michigan.

More complete plans will be worked out by district Cooperative Extension Service supervisors, county agricultural agents and MSC area specialists. As usual, they will call on individual farmers to tell their experiences in making use of grassland farming for more profit, soil improvement and reduced costs.

Announcement of the Grass Institutes continuing this winter once again, sparks new rumors that the winding-up of Grass Days after seven successful years means any end by MSC to its emphasis on grassland farming values. In addition, the MSC leaders are turning to the field the counties, the farmers, the agents — for the best over-all program to replace Grass Days.

City Sewage Case

(Continued from Page One)

tion. Action was started against the city for failure to meet the deadline set by the State for the filing of plans and specifications for the proposed sewage plant.

According to city officials, the plans were not filed because the State was reluctant to approve the type of system proposed. The contract aeration system, contemplated by the city, is comparatively new in this section of the country, although it is quite widely used elsewhere, officials stated. The system is much less expensive to construct and operate than conventional plants, officials added.

SAD -- BUT TRUE

We know better'n anybody that it aint gonna be long 'til Thanksgiving cause we got our first bow and arrow deer here already. It wasn't a big one; but they've started comin' this way. That brings us to thinkin' that if we gotta send a box overseas we should be startin'. Now if you wanna send a fruit cake we got some in — fresh this year. Or if yer gonna bake one we're gatherin' in the makin's already. Seems kinda early to talk about that but guess it's later than we think. To git back to today we've got some U. S. choice graded sirloin and round steak fer 89c a lb. In the pork line there's rib end pork loin roasts fer 49c a lb. and spare ribs fer 59c a lb. Down town they always serve apple sauce with pork so are you gonna? We have McIntosh or Jonathans 3 lbs. fer 29c. They're nice ones too. Fer a quickie meal there's our fresh ground beef fer 35c a lb. or 3 lbs. fer \$1.00. Wanna bowl of soup and a hamburger? Tomato soup is 9 fer \$1.00. Fer lunch pails git the grinder out and grind some big bologna with sweet pickles. You can git bologna fer 49c a lb. and the sweet pickles fer 45c a quart. To stick it together with there's Salad Bowl fer 39c a quart. In the Vlasic line there's jam and butter. The butter is 69c a lb. and the strawberry jam is 25c a glass full.

'Tis sed that we should look fer the-brighter things in life — the gloomy ones will show up without searching.
