

Local Girl Initiated Into U.M. Honor Society

Among the 76 new initiates from the University of Michigan elected into the national honorary society Phi Beta Kappa, was Luella G. Pardee, 22418 North-western Highway.

A senior this year, Luella obtained exceptionally high grades in completing a four year course at the university. Membership requirement for initiation into the society is a nearly all-A record for a total college career. The honor is bestowed on superior students in the literary college and education and music schools.

Names of students to be initiated were announced at the 46th annual banquet for the "Alpha chapter, University of Michigan, on Thursday, April 22.

Novi Students Plan School Fair May 7

A School Fair will be presented at the Novi School under the sponsorship of the Mothers' Club of Novi on Friday, May 7.

To be conducted from 7:30 until 10:00 p.m., the fair will be held in the various classrooms of the school and in the adjacent community building. Each grade will be responsible for a specific phase of the fair in their respective classrooms.

The portions of the fair to be sponsored by each grade are as follows: Kindergarten, movie and bake sale; first grade, gift shop, fortune telling booth and a fish pond; second grade, cake walk, white elephant table; third grade, kitchen, serving coffee, hot dogs,

etc.; fourth grade, games; fifth grade, candy booth; sixth grade, check room and nursery; seventh grade, photographic booth; eighth grade, greenhouse and spook house.

Exhibitions in square dancing, and the polka will also be given by school children. Prizes will be awarded during the evening.

Mrs. Russ Taylor is general chairman of the School Fair activities.

Eighty per cent of vehicles involved in fatal traffic accidents in 1953 were traveling straight ahead.

Little Miss Robin Lee Newsom spent Easter Sunday with her grandparents, Mr. and Mrs. Luther Humlin of 23994 Independence, Farmington, and with Mr. and Mrs. George Newsom, 20195 Maeda, Southfield.

**America's lowest priced low-friction SIX!**

FORD'S NEW I-BLOCK SIX IS THE MOST MODERN SIX IN THE INDUSTRY . . . THE ONLY LOW-FRICTION SIX IN ITS FIELD!

Why are more and more folks who like sixes swinging to Ford's 115-h.p. I-block Six? Because they're getting the most modern six in the industry . . . and for less money than practically any other six in America. Ford's short-stroke, low-friction design means less gas waste, less wear and longer engine life. The extra-deep, "I-shaped" block means a more rigid, quieter engine. And the new high-turbulence combustion chambers, teamed with Ford's exclusive Automatic Power-Pilot, bring you even more "GO" per gallon.

ONLY FORD OFFERS BOTH A V-8 AND SIX IN THE LOW-PRICE FIELD!

Ford is still the only low-priced car to bring you V-8 power. And this year, Ford's Y-block V-8, with its new deep-block, low-friction design, is the most modern

"eight" in the industry. Both new Ford engines are available with Fordomatic, "Overdrive" or Conventional Drive—the finest choice of drives in the low-price field.

\*at extra cost

**HERE'S WHAT FORD'S LOW-FRICTION DESIGN MEANS TO YOU**

**LONGER ENGINE LIFE.** Both new Ford engines are of short-stroke design. This means pistons travel less distance. Naturally, there is less friction and less wear. In both engines overhead valves have a free-turning feature which allows them to rotate to cut down wear.

**MORE POWER.** Because there is less friction to overcome in moving pistons up and down, there is more energy available to move the car. And because combustion chambers are wedge-shaped, fuel burns more completely . . . for even more power and less gas waste.

**MORE "GO" PER GALLON.** In addition to this gas-saving, low-friction design, Ford engines bring you the Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas. You won't find any of the modern advances on this page in any other low-priced car.

Worth more when you buy it . . . worth more when you sell it!
