On July 17, Representatives from 17 port cities will be invited.

Purpose of the meetings, according to Rep. Herb Clements, (R-Decker) "is to find out what legislation is needed to help develop port facilities, in preparation for the St. Lawrence seaway."

Dates for other meetings have not yet been announced, but Clements said the group will meet at each of the following cities: Detroit, Saginaw, Traverse City, Benton Harbor, Bay City, Alpena, Muskegon, Holland, Ludington, Frankfort, Sault Ste. Marie, Escanaba, Marquette, Houghton, and Menominee.

A PROPOSAL to legalize bingo will be on the November 2 ballot.

Petitions requiring referendum of charity gambling were filed last week by Charles R. MacLean, attorney for the Michigan Association of Nonprofit Charitable Organizations.

If passed, the proposal will enable the legislature to set up legal bingo games, etc., for nonprofit charitable organizations only. At present legislative action along this line is prohibited by the Constitution.

MacLean emphasized that the same law which permits charitable groups to hold lotteries should also specifically prohibit profiteering by "professional" operators. "If any but charitable groups get into this thing," he said, "I'll kill the whole idea for everyone."

A NEW SOLUTION for an old quarrel is being tried at Silver Lake, 15 miles north of Grand Rapids. By mutual agreement, summer and permanent residents have agreed after 5 p.m. Mondays and Wednesdays. This leaves the lake completely open to fishermen.

A meeting has been set for next fall when the success of this idea can be discussed.

#### CAUSES "BROWNING"

Discoloration of canned peaches may be caused by one or all of these factors: Improper handling before processing, peaches not completely covered by syrup in the jar, or air in the jar due to underprocessing.

#### Conservation Movies Available

The conservation department's film loan section is well on its way to another year of record use, says Mrs. J. Tinker, in charge of the section, reports.

Each year, the public makes more extensive use of the loan service, and since its beginnings in 1929, "many millions" of persons have seen department films, Tinker says.

The films cover a variety of conservation subjects and are loaned free to schools, service groups, sportsmen's clubs, churches and others. Any organized group may borrow the films and the only cost to the user is postage.

This year's loans and attendance promise to top the old record by a wide margin.

In the last nine months, more than 3,300 loans were made and 336,000 persons viewed the screenings.

From 65 to 70 per cent of the loans go to schools. Ten per cent go to service groups, eight per cent to sportsmen's clubs and the remainder to a miscellaneous group of users.

At present, 34 films are listed in the department catalog as available to the public. All but four of these are sound films and all but seven are in color.

Also, announcement and publication of a new film on Michigan's deer problems is expected shortly.

Tinker says a film on Michigan wildflowers is being edited, too, though publication is not expected before fall.

A new film catalog will be published in August; persons who request the catalog now will receive their copy as soon as available.

#### Banana Milk Shake is A Treat For Whole Family

Flavored milk shakes often help to solve milk-drinking problems. Non-fat dry milk solids can be added to whole milk-drinks to make them doubly rich in those needed minerals, calcium and phosphorus. Chances are the whole family will like this banana milk shake recipe. It is a

(There should be about 1 1/2 cups mashed banana). Add milk, dry milk, almond flavoring and salt. Beat until thoroughly blended. (1/3 cup of finely crushed ice may be added with milk if desired.) Serve immediately. Makes 4 to 6 servings.
