Corn Allotments Now Available

Any producer who intends to plant corn in 1955 on a farm where no corn was planted during the years 1952, 1953 or 1954, should apply for a "new farm" corn acreage allotment if he wants any price support or an ACP payment in 1955, Robert Long, chairman of the County Agricultural Stabilization and Conservation Committee, said this week.

Marketing quotas do not apply to corn, the chairman explained. However, under the acreage allotment program, the production of corn in 1955 on a farm which has no corn acreage allotment would make all the crops from the farm ineligible for price support in 1955. Likewise, the producer on such a farm would be ineligible for any payment under the 1955 Agricultural Conservation Program.

Application forms for "new farm" corn acreage allotments are available at the County ASC office, January 15, 1955, is the last day such applications may be filed.
