incorporated areas in Section 5 as Residential IV. Both the Township Zoning Board and the County Zoning Board recommended approval of the proposal. The Board also took final action approving the rezoning of three lots on Farmington Road near Planders from Residential of Commercial. The Township Zoning Board recommended the change, although the county suggested that it be turned down. Both amendments will become effective within 30 days, provided referendum petitions are not filed.

Editorial

Another year has past. The festivity and gaiety of the holiday season is once again in the past. As students of Clarenceville High School, what have you contributed to our school or better school? What do you plan to do in the coming year of 1955?

At the beginning of each new year it is the custom of many American people to make resolutions for the coming year. As the youth of America, with such a great future ahead of us, we too, should resolve to make this a better year than 1954. Many of the students of Clarenceville have already resolved things pertaining to their personal self, their school and their church. But how many have given any consideration to their school. To each person in each class, there are good reasons for New Year's resolutions.

As freshmen, we should resolve to build a good foundation academically. We should develop good habits of sportsmanship, both on and off school activities, and to show respect for our teachers and administrators. These resolutions will start us off on the right foot.

As sophomores we should resolve to participate in all clubs and organizations for which we are best suited. We should serve these clubs and organizations to the best of our knowledge. We should resolve to organize a well-balanced curriculum, one which enables us to our very best academically and socially.

As Juniors we should plan for the future, getting the most from each subject and activity we take part in. We should be active members of our class. We should respect our school property and work to make our school one of which we can be proud to say we graduated from.

And last, as Seniors we should resolve to set a good example for underclassmen. To show them in every way possible how to attend a school of high standards, made so by its students.

They all testified that (1) the house buying and bombing was a specific technique used by Communists to foment civil strife and hatred between the races; and that (2) the type of Communist literature and the quantity found in Braden's home would only be found in the possession of a Communist.

Then, late in the trial, the prosecution introduced a surprise witness, Mrs. Alberta Ahearn. She quickly identified herself as a member of the Communist Party cells in Louisville since January 1951 — as a counterparty for the FBI. She said Braden was a Communist leader in Louisville; that she had joined the party at a meeting in Braden's home; that Mrs. Braden was a Communist; and that Braden collected dues for one of the Louisville cells.

Braden was convicted of advocating sedition. Trial of Mrs. Braden and other under indictment will be held later.
