

### In And Around Springland

**MRS. RALPH EVERT**  
Phone 2381-J

The "Mothers' March" was carried out in Springland Subdivision by Mrs. Harold White and Mrs. Hartholme of Elwood Mile Road.

Mr. and Mrs. R. Carpenter of Orchard Lake Road are the proud parents of a new baby girl, Debbie Dorothy, born January 30 at the Henry Ford Hospital. The infant weighed 5 pounds 11 ounces.

A bitter supper party was held in honor of Mrs. Edward Archambault at the home of Mr. and Mrs. Hiram Archambault on Orchard Lake Road last week. There were seventeen members of the family present at the celebration.

The welcome mat is out for two new families in Springland Subdivision. Mr. and Mrs. A. MacLean Thornhill and Mr. and Mrs. Clifford Reeger. Both live on Springfield Drive.

Mr. and Mrs. George Griffin of Mayfield Avenue in Farmington were dinner guests on Sunday at the home of Mr. and Mrs. Robert Robertson of Springfield Drive.

On Sunday Mr. and Mrs. Jake Waack of Springfield Drive entertained.

### Eight Mile Extension Group Meets Feb. 3

A meeting of the Eight Mile Extension Group was held February 3 at the home of Mrs. Floyd Larremore. A lesson in the care of modern clothes and laundering methods of other materials was given by Mrs. Larremore and Mrs. Earl Marks. An exchange of ideas on favorite household gadgets proved helpful.

A meeting at the Northville State Hospital for auxiliary chairmen was held recently with Mrs. Frank Pijls in attendance from the extension group. Plans were made for the group to work with a larger group in the hospital than in the past.

Originally torpedo tubes on Navy destroyers were mounted in the bow. Now they are mounted in a battery which can be trained so that the whole ship need not be turned toward the target.

Susan Schoon will be seven years old on February 10. On Sunday, February 5, she enjoyed an early birthday party. Guests present were: Adele O'Connell, Sandy Wren, Fay Neutra, Corrine Mallon, Maureen Gordon, Peggy Burke, and Mary Ellen Robertson. Games were played and prizes awarded. Refreshments of birthday cake and ice cream were served.

On February 5 the William J. Tobins of Dromwell entertained with cards and a luncheon. Guests were Mrs. and Mrs. Larry Sublett of Detroit, Mr. and Mrs. Mark White of Highland Park, and Mr. and Mrs. Robert Carlisle of Royal Oak.

Week end guests of the James Carverius of Dromwell Avenue were Mr. and Mrs. William Graves and daughters Penny and Patty of Berkley.

### FRANKLIN CHURCH TO OPEN FUND DRIVE FEB. 27

Sunday, February 27, will be a Red-letter day in the long and illustrious history of Franklin Community Church. It will be the start of a \$195,000 Building Fund Drive.

The opening service of the campaign will be at 10:45 a.m. and will include a commissioning service for all workers. A workers' rally will be held at 2:30 p.m. that day, followed immediately by calls on assigned prospects. It is hoped that the canvass will be completed that afternoon and evening.

Mr. Robert Baxley of Franklin is chairman of the Friends division phase of the campaign.

To be added to the rapidly growing list of enthusiastic workers are: Al Giese, George Huffman, Bert Wood, Art Hays, Art Keger, Jerry Wright, Elerton Bacon, Grant Sivier, John Hill, Wendell Brown and Len Pope.

Also enlisted are: Richard Caskey, Nick Rosello, Roy Troutcaud, Bob Yingling, Jack Roberts, Harry Rottiers, Len Madge and Jack Lackner.

The four x-ray units of the Michigan Department of Health took close to 300,000 chest x-rays in 1954. For every 1,000 persons x-rayed, findings average 11 suspected cases of tuberculosis, two suspected cases of cancer, and 11 suspected cases of heart disease.

A hunter - killer unit is composed of Navy aircraft with detection equipment and destroyers; the aircraft seek out enemy submarines and call for destroyers to make the kill.

**NOVI NEWS**  
By MRS. GEORGE WAITE  
TELEPHONE NORTVILLE 1206-W2

The Rebekah Independent Club met Wednesday, February 2, at the home of Mrs. Charles Trickey, Sr., for a pot luck dinner with 23 guests present. Plans were made for a birthday party at the Community Hall on June 8. A lunch will be served at 1 p.m., followed by an afternoon program. Mrs. George Waite was named chairman.

Mr. and Mrs. George Mairs will hold open house for the former's father, William Mairs, on Saturday, February 13, from 2 to 7 p.m. at the Odd Fellows Hall. They will be honoring him on his 80th birthday. Odd Fellows and Rebekahs will assist at the party.

The W. S. C. S. will meet at the Methodist Church dining room on Wednesday, February 16, for a noon-day lunch and business meeting. Hostesses will be Mrs. Signa Mitchell and Mrs. Dewey Smith.

## How far are we from Atoms for Peace?

Here's an up-to-the-minute progress report:

Just what is the potential of Atoms for Peace? Well, a three-pound rod of uranium, no larger than a small flashlight, offers a power-potential equivalent to 60 carloads (4,000 tons) of coal. Of course, it takes a great deal of special equipment to produce and deliver this power. But three pounds of uranium can furnish, for a period of eight hours, enough electric power for all of the three-and-a-half millions of people—all of the homes, stores, farms and factories—served by Detroit Edison in Southeastern Michigan.

heat exchangers and other devices for handling liquid metals at extremely high temperatures. As the simplified diagram below shows, the problem is to bring heat energy from a reactor, or atomic furnace, to the turbine generator. Enough equipment will be installed to test the liquid metal section of the plant.

- As another key part of this program, the Associates authorized development of a special boiler, or steam generator, to operate under nuclear heat conditions.

- To accomplish these major advances in their long-range program, the Associates will spend \$3,815,000 in 1955, and all are sharing the costs.

The project is a striking example of the effectiveness of industrial teamwork in doing things that have never been done before on this scale.

Member companies of the Atomic Power Development Associates hasten results by pooling the special talents of their personnel. Company-owned research and development facilities also have been made available.

All 33 Associates share the same kind of vision—the vision of a better world.

Several years of work still lie ahead, yet, thanks to this kind of cooperation, hope for atomic energy for peace is a dream that can come true in our time!

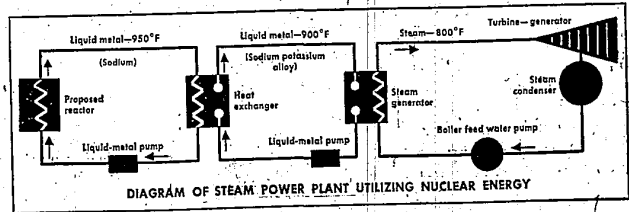

ONE HAND HOLDS 60 CARLOADS OF POWER! Detroit Edison President Walker L. Ciesler exhibits a rod of uranium which is the equivalent of 60 carloads (4,000 tons) of coal.

LAST WEEK, in Detroit, representatives of the 33 member companies of the Atomic Power Development Associates announced their research and development program for 1955.

The submarine U.S.S. Nautilus has recently demonstrated that atomic electric power can be produced. Commercially, however, the cost is too high. The resources of the Associates, therefore, are mobilized to discover an economically practical way to harness uranium, a source of energy that can benefit mankind for thousands of years. These 1955 plans are important forward steps toward the goal of using atomic energy to produce electric power.

- Major target in the 1955 program is to build a whole new system of pumps, piping,
