NOMINATE . . .

FRED G. MENKE FOR FARMINGTON TOWNSHIP SUPERVISOR

To the Voters of Farmington Township:

==

In this letter, as briefly os possible, I shall attempt to cover the principal points that make up my campaign and why I believe I should be your Supervisor for the next two years.

1. I believe that water and sewers should be available wherever needed . . and paid for by assessment of those who benefit from the installations. I believe that in the community development to come, water and sewage should be adequately provided first.

2. I believe the Supervisor should do everything in his power to promote the repairing this comes under the build and maintain a sold commission. road commission.

3. I believe that rubbish should be picked up at least once each month, more often if it proves necessary, and deposited in a dump owned by Farmington Township.

4. I believe that the present police department is inadequate for proper protection of our homes. A department with a minimum of five men with headquarters of their own is a must for the township. No officer can continue or be expected to work 24 hours a day.

5. I believe that the fire department should be completely equipped to take care of every need that may arise. Here is an instance where every precaution we can muster should be utilized.

6. I believe that the township now has all the trailer parks it can utilize. The addition of any more would tend to curb other desired business construction.

7. I believe that present valuations on real estate and other property holdings should be reassessed by an expert appraiser, to insure fair taxation to all.

8. I believe in higher restrictions on new subdivisions and real estate developments to insure proper water, drainage, roads and anything else that will provide for a finer; cleaner township.

9. I believe that the people should be promptly and fully informed as to the actions taken by their township officials and will see that a full report of the official minutes of the meeting will run in the local newspaper.

10. I believe there should be a township hall in Farmington Town-10. I beneve there should be a township hall in ramington lownship, wherein the various departments can function more efficiently and speedily for benefit of the township residents; I believe also, that the township should have at least two parks for safe recreation of both juveniles and adults.

Very truly yours, FRED G. MENKE
