About the only way today's so-called "liberals" fit the dictionary definitions of the word is in their liberality with other people's money, work, and personal plans for progress.

Forest Fire Season Begins Later This Year

Michigan's forest fire season is unusually late in starting this year.

Usually, southern Michigan opens the state's forest fire season with grass fires sometime in the last two weeks of February.

This year, continuing snows and generally wet weather have kept fire hazards low.

The upper and northern lower peninsulas generally report no fires before mid or late March.

It is estimated that there were 1,200,000 new houses built in our land during 1954.
