LETTER TO EDITOR

Letters submitted to the Editor for publication must be signed. Opinions expressed in this column are those of the writer and do not necessarily represent the policies of this newspaper.

To the Editor:

I agree wholeheartedly with a recent letter to the editor which appeared in your paper regarding dogs and signed "Pro Bono."

Let's have more dogs pounds full of dogs.

Personally, I don't care where they keep them as long as they are kept out of my chicken house and gardens. Most residents have brought out have to have vegetable and flower gardens and we should not have to put up with filthy dogs over-running such gardens and destroying shrubbery.

Why not vote stray dogs out like the hunters were two years ago. Lovers of animals should not object because those who love their dogs keep them at home, feed them properly and do dislike strangers' dogs trespassing on their property.

Let's have more letters on this subject and then maybe city and township officials will see fit to have it voted on by the people, who should have been rid of these pests years ago. I call them pests because I fail to see where they were put upon this earth to do any good to humanity. People can surely live without them.

Mrs. James Loomis, Ex-Poultry Raiser

There will be a pot luck supper Thursday evening, March 24, at the Orchard Methodist Church. Each family is to bring chicken and some other dish. The time of the supper is 6:30 p.m.

It's great fun to step into a Ford's rich, colorful Luxury Lounge interior... to touch your toe to the gas pedal and feel the masterful might of Trigger-Torque power responding instantly to your every wish. It's fun too, to bask in the admiration aroused everywhere by Ford's Thunderbird-inspired styling.

But, for the ultimate in driving fun and ease, you should try a Ford with Ford's optional power assists: new Speed-Trigger Fordomatic, power steering, brakes, windows and seat. Ford brings you the power assists that combine to do the most for you automatically... so you get the most out of your daily driving!

Automatic Driving at Its Best

Speed-Trigger Fordomatic Drive has a new, automatic low gear which lets you start in low, shift to intermediate and then into high—all automatically—all while the selector lever is in drive position. It's the only "automatic" in its field that combines the smoothness of a fluid torque converter with the versatility of three automatic forward gears.

Power to Apply Your Brakes

Ford's Swift Sure Power Brakes do up to one-third of the stopping work for you. And there's built-in safety. With power off, you stop your car as easily as though your Ford were equipped with the standard braking system.

Power to Adjust Your Seat

Ford's 4-Way Power Seat is the only power seat in Ford's field that adjusts "up and down" as well as "forward and back" for most comfortable driving position. A touch of the conveniently located single seat control does it!

Power to Lift Your Windows

With Ford Power-Lift Windows you don't need to stop in order to open or close all side windows. Driver can operate all four windows from the master control. And each passenger has a separate control switch for his own window.

And there's Trigger-Torque power to give you more "Go"
