Dear Sirs:  
 My neighbors and myself have come to the conclusion that we are a group of selfish ducks just waiting to be knocked off by riflemen who spend Saturday and Sunday trying to be or not to be murderers.

We have called both the State Police and Sheriff's office but as yet have gotten no action.

Recently two bullets came much too close for comfort while I was working in my garden. Several days ago, a neighbor boy, Mike Brown, was nearly hit by a slug.

Every spring, fall and winter something like this is going on. Must we wait until someone gets killed or do we organize a rifle corp of our own and start shooting back? Who owns a 30-06 and can use it?

**HOW'S YOUR BUDGET?**

THESE ARE TRYING TIMES for the family paycheck, and the lady of the house has a man's job when it comes to balancing her Budget.

She has a friend and helper in the truck, however, for, although she may not realize it, motor transport helps keep the cost of living down by cutting transportation costs.

The average family spends more for transportation than for any other item save food. So it is clear that the ability of trucks to increase the efficiency of moving goods of all kinds results in substantial savings to the consumer.

The thing we have to guard against is allowing politicians to increase taxes on trucks beyond the more than fair share they're already paying, for, you see, every tax increase on trucks actually comes right out of the people's pocketbooks in increased prices for everything they buy.
