Congratulations - Graduates!

Lots of success to all of you — and don't take any wooden nickles 'cause even a really one won't buy much these days. Believe us — we know — 'cause we sit here every Tuesday morning and beat our brains out trying to think of something to advertise that we won't lose too much on. Since we are right in the midst of the strawberry season we thought maybe some of you big kids would be interested in gettin' 10 lbs. of cane sugar for 89c. That brings up the shortcake and fer that maybe you could use 5 lbs. of Gold Medal or Pillsbury flour for 49c. Need a little butter, too, and Vaseline is 59c a lb. Course coffee is a must and there's Hills, Beechnut, or Maxwell for 89c a lb. If yer makin' jam we got in our supply of Sure-jel, certo, parawax, lids and rubbers — and even a few jars. Course you'll wanna freeze some, too, and we're all set in that department. The meat department is pretty well set too. They have real nice fresh veal steak for 89c a lb. this week end. If you'd like a batch of corned beef and cabbage we have some of our own kosher corned beef for 59c a lb. Fer beef you can get U. S. graded choice round steak for 79c a lb. or U. S. graded choice pot roasts for 39c a lb. Jest in case yuh might be needin' picnic stuff we got the whole works there, even to ice cold watermelon. If yuh don't want a whole one we'll cut it fer yuh! In case it really gets warm this week end we have a complete line of cold liquid refreshments too — know what we mean???

Public Invited To Bank 'Open House'

Thursday, June 23

The public is cordially invited to attend an open house at the Farmington State Bank on Thursday, June 23. The open house will be held from 9 a.m. to 7 p.m. in celebration of the completion of another phase of a long range expansion program.

A completely new "Lower Lobby" has been opened, housing a huge new vault. In this way it has been possible for the bank to greatly increase the number of safety deposit boxes available, so that all customers might be provided with this service. The bank's loan department and offices also have been moved into the lower portion of the bank building.

Another expansion step which will be celebrated is the recent opening of sidewalk windows providing speedy sidewalk banking service for business people and residents of the Farmington area.

The bank's long range expansion program started about seven or eight years ago when they purchased a building to the east, facing on Grand River, and converted it into space for offices and accounting facilities. Last year they purchased the men's clothing store on the south, facing onto Farmington Road, for further expansion of the accounting department and to provide still more office space.

Officials at the bank invite all their old customers as well as new residents and business personnel to drop in at the bank building during the open house and inspect the enhanced improvements and facilities which are now provided.

CIVIC ASSOCIATION IN CLARENCEVILLE ELECTS OFFICERS

Talmage Curtis, 21227 Waldron, was elected president of the newly formed Clarenceville Civic Improvement Association at a meeting of the group held last week in the Fire Station on Wheel or Street.

Other new officers include: John Byrne, 21720 Waldron, first vice-president; Mrs. Murye Lipke, 21324 Rockwell, second vice-president; Mrs. Joseph DeMarco, 21117 Cullingham, secretary; and Miles Johnson, 21015 St. Francis, treasurer. The constitution and by-laws were read by William Munger, Attorney, retained by the Association and later revised by Temporary Chairman Curtis. After making a few minor changes, the group accepted and ratified the constitution and by-laws.

An overflow audience of more than 100 persons crowded into the Fire Hall for the meeting.

Three Injured

(Continued from Page 1A)

at 10 a.m. on charge of negligent homicide in the recent death of Art Sheldon of 22660 Middlefield. Sheldon died of injuries received in a collision between his motorcycle and the Evelyn auto on Orchard Lake Road at Shilavasse.

The accident occurred on Sunday, May 22. Evelyn left the scene of the accident but returned voluntarily about one-half hour later. He was released after making a statement to the County Prosecutor pending further hearings.

New Chevrolet Dealer Completes Reorganization Of Local Agency

Bill Root, who recently took over the Chevrolet automobile agency in Farmington at 22715 Grand River, has now completed reorganization of the dealership and offers a complete and up-to-date service department to serve auto owners in this area as well as a wide variety of new and used cars.

Mr. Root is well qualified to provide all auto needs. He has had 16 years of experience as a Chevrolet auto executive in sales and management. Places where he has been employed include the Industrial Motor Sales in Ecorse, H. R. Marsh Sales in Dearborn and Gehring Chevrolet in Birmingham.

Root is a member of the Detroit Chevrolet Dealers Association. Born in Illinois, Mr. Root moved to Detroit with his family at an early age and has resided in and around the metropolitan area since that time. He currently lives with his wife and son on Twelve Mile Road in Royal Oak.

Advise Adoption

(Continued from Page 1A)

Plans for the development of a new public parking area in the vicinity of Grand River and Liberty near the Fire Hall building were discussed briefly at the meeting. The property is presently owned by the Farmington State Bank. Counllman V. O. Bates reported that Howard Warner, president of the bank, discussed the proposed plan with him several weeks ago. Louis Nolen, chairman of the Planning Commission, suggested that as soon as more complete plans have been developed that Warner be invited to discuss the proposal with the Commission.

A group of property owners along Lakeway were present at the meeting to protest the suggested construction of multiple dwellings on the west side of the street just north of the Lakeway Drive-in. The matter was tabled until actual plans are submitted by the developer.

The balance of the meeting was continued to a detailed discussion of local phases of the proposed revised zoning ordinance. Paul Pare, City Attorney, presented a series of questions regarding the proposal which were reviewed by the Commission. As a result of the discussion, a number of minor word changes were made.

New Construction

(Continued from Page 1A)

The bonding organization for any deficiencies in work prior to do fault by Ellis met with disfavor of the Board members, however.

A resolution was adopted by the Board agreeing to such a contract only if this provision is eliminated. A special session of the Board has been set for this Thursday evening to review the bonding company's decision and take necessary steps for the resumption of work on the addition, either by Ellis or some other contractor.

A preliminary layout of the proposed new athletic field at the high school site was submitted to the Board and discussed in detail. Minor changes were suggested and a plan was placed on record for consideration. The Board then authorized school administrators to obtain estimates on specific phases of the athletic field construction program. It is anticipated that the project will be completed in phases due to the limited funds available for a project of this nature.

Relative to the athletic program, discussion was also conducted on locker facilities, uniforms for gym class students, and the design and construction of a new dressing room. A standing order for this year. It was agreed that all available space should be utilized for lockers for all students and that similar forms be required for all students taking part in gym classes. No action was taken on policy regarding the awarding of an outstanding athlete each year.

A letter to President Wendell Brown from the Franklin Knolls Improvement Association was read before the Board. The letter was in regard to poor heating and toilet facilities at the German School.

Following a discussion of the matter, the Board requested Superintendent O. E. Danckel to make a study at the school and report to the Board at a later meeting. A feeling was expressed by some Board members and school administrators that the one-room kindergarten German School should be abandoned.

Appointment of new teachers and elementary principals in the District was also taken up by the Board.

STRAWBERRIES NOW APPEARING ON MARKET IN VOLUME

Strawberries, the first of the homegrown fruits to mature in Michigan each year, are appearing in volume on the markets throughout the state, and are providing the chief ingredient of that favorite dessert, strawberry shortcake.

Mashed, strawberries also make excellent topping for ice cream and many other desserts. Thousands of housewives will can or freeze strawberries for use during the months to come.

That the 1955 crop now being harvested will be larger than last year's crops in Michigan is doubted by few market observers. On the morning of May 9 a freeze in most strawberry producing sections of the state killed blossoms, some immature berries as well as some buds, according to the Michigan department of agriculture.

But the acreage in the state was larger than last year. Michigan had an estimated 11,000 acres for the 1955 season, a thousand acres more than the year before. The average of the largest east of the Pacific coast among the late-producing states.

Besides that, ample rainfall last fall put strawberry plants into the winter in excellent condition. A good winter for them brought strawberry plants into the spring with prospects of a crop greater than the average crop during the five years from 1949 to 1953. The average those years was 1,390,000 crates of 16 quarts each.

Being a shallow-rooted plant, the strawberry is greatly subject to weather conditions. Ample moisture following settings of blossoms will assure plenty of a bumper crop. But dry weather, coupled with high temperatures, means smaller, less juicy berries. The weather man is the deciding factor with strawberries, but irrigation on some farms is providing moisture when needed.

Nature is often kind, sometimes over-kind, seldom exulting.

Voters Approve

(Continued from Page One)

Farmington's new school district is a reduction in the total Board of Education salary from \$1,200 in 1954-55 to \$650 for the coming year 1955-56. It was announced by Secretary of the Board, Robert Brown, secretary of the Farmington School District has increased a total of 639 students, or 21% during the current school year. The report stated that if this rate of growth is continued during the coming school year, the enrollment will reach a total of 4,450 students. On the basis of 35 pupils per room, the estimated increase for the coming year will require 22 additional teachers and a similar number of classrooms.

The voters attending the Clarenceville Meeting approved a motion to leave the total Board salary at \$1,800, the same as last year. Both the Secretary and the Treasurer of the Board are authorized by the Board to establish the length of the school year. Officials stated that the law requires a minimum of 180 school days effective at 12:01 a.m. June 19, and Treasurer's reports were read and accepted.

SOUTHFIELD PHONES WILL SWITCH TO 'ELGIN' JUNE 19

All "Flanders" telephone numbers in the Southfield exchange of the Michigan Bell Telephone Company will be changed to "Elgin" effective at 12:01 a.m. June 19, according to R. H. Maurer, the company's manager here.

Maurer said Farmington users should place calls to Southfield through the operator as at present but should ask for "Elgin" instead of "Flanders" after June 19.

Water Controls

(Continued from Page 1A)

Adoption of the rules was suggested by officials of the Detroit Water Board, suppliers of the Section 36 system, and was recommended by Matthew Carey, receiver for the system. The Farmington Township Board approved the adoption of the regulation at a regular May 24 meeting.

Officials estimate that the two new wells will nearly double the amount of water available. It is hoped that contracts can be awarded and work can be started in the immediate future.

Leaf lettuce prices have dropped due to the increasing supply from nearby fields. Leaf lettuce will cut new color and mild flavor into spring salad bowls.

City To Open Bids

(Continued from Page 1A)

The newly expanded system will provide additional pressure in the western section of the city as well as increase the total supply of water throughout the community.

Officials estimate that the two new wells will nearly double the amount of water available. It is hoped that contracts can be awarded and work can be started in the immediate future.

Leaf lettuce prices have dropped due to the increasing supply from nearby fields. Leaf lettuce will cut new color and mild flavor into spring salad bowls.

Hope is unwavering a piece of knitted string you suspect won't be long enough anyway.

JAYCEES INSTALL NEW OFFICERS AT BANQUET JUNE 11

William Conroy was installed as president of the Farmington Junior Chamber of Commerce at the annual installation banquet held Saturday evening at Paul's Telegraph and Plymouth Roads.

Other newly elected officers installed were: Charles Bridges, first vice-president; Samuel Graham, second vice-president; Robert Brown, secretary; George J. Jolley, treasurer; and James Davis, director. Robert Clarke, past president, will also serve on the Board during the year 1955-56.

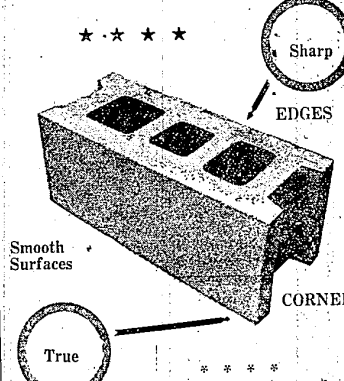

George Frazer, of Saginaw, former president of the Michigan Junior Chamber of Commerce, was the principal speaker. He addressed the group on the various experiences while serving in the Junior Chamber of Commerce movement. Clarke presented a report on the activities of the Farmington Jaycees during the past year and Conroy outlined the objectives of the group for 1955-56. Werner Claus served as toastmaster.

With more warm days ahead, there's good news for lemonade sippers. Look for more lemons at better prices on June fruit counters.

What the government sends out at this time are blanks — it's the taxpayer who explodes.
