This time of year we bust out in verse. There's nothing on record could be much worse. All the prices we give you will be by the pound. Like fer instance - 79c fer steak called round. Fer 89c you can get a cubed steak That would be swell cooked on a charcoal grate. Then 39c will get a bag of charcoal here. We also have a supply of ice cold beer. Seems we should mention our hamburger - too. It's 89c ground fresh - from us direct to you. Or maybe you'll want a hot dog or four. 49c is the price - not one penny more. If you have a grill that's fancy and fit. Get some ribs or chicken to fit on the spit. That's something that fer the Fourth seems seasonable. And 59c a lb. makes the price real reasonable. Maybe you'll want salad made from potatoes. There's more things I should tell you about at this time, But honeydew and watermelons just don't seem to rhyme. We nearly forgot butter - that wouldn't seem right. But then on the other hand - we're not very bright. Anyone who tries poetry with groceries and meat Has a lot of nerve if they don't admit defeat.

Agreed????

NOVI NEWS
By Mrs. George Waite
Phone Northville 1200-W2

Mr. and Mrs. William Hanson left Monday to spend a week with their son, Harold, and his wife at their cabin in Newberry.

Mrs. Ed Putnam, her two children, and her sister, Mrs. Mildred Horsfall, left Monday for a week's vacation at the Putnam cottage at Livingston.

Mr. and Mrs. Duane Bell and their three children left Sunday to spend a few days at Glenzie visiting Mr. Bell's mother.

Mrs. Laura Kistler, who is spending the summer with the Frank Tamms, spent the past week at Chatham.

If you are wondering about the smile on the faces of the Frazier Strain family, it is all because of the return of their dog, Duke, who has been gone for eleven months.

The thirty Blue Star Mothers of Novi, and Walled Lake, raised over \$1,600.00 this past year between bake sales, card parties, and other sources.

37 Conservation Films Now Available To Public

Nearly three-quarters of a million school students viewed Conservation Department films during the last school year.

The Department's film loan service made a record 5000 shipments to schools throughout the State in an increase of 1200 over the record set in 1954.

The film loan service started in 1929 when a few short film strips were made available for public use. Today, schools, service clubs, sportsmen's groups and other civic organizations can borrow any or all of 37 films.

Fred Searle To Attend YMCA Paris Conference, Tour Europe

Fred Searle, 21445 Leuzinger, will attend the Centennial World Conference of the World Alliance of YMCA's to be held in Paris from August 16 - 23 as Detroit's representative this year.

Mr. Searle became a member of the Detroit Y in 1895. He has served in "several administrative capacities in the YMCA and is presently a member of the board of directors of Northern Branch, YMCA, Highland Park.

Prior to attending the conference, he will take the month-long Kazmayr European Seminar Tour of Europe. Robert Kazmayr, nationally known Seminar Tour Director, will conduct this tour of Europe for the first time in 1958 and will be the first to visit the best of the European tours, plus a knowledge of what is happening in Europe today, how people in various walks of life live, what they earn, what they have to spend for food, clothes, rent, and how they feel about their own governments, about the United States, Russia, why some countries vote Communist, why others do not.

To give the tourists this information, the seminar tours provide lectures on the political and economic background of each country visited, interviews with U. S. officials and leaders in these countries, breakfast and dinner meetings with average and outstanding citizens of these countries and the chance to actually meet and talk with the peoples of the countries visited, and the Kazmayr Seminar Notebooks, with the famous "Little Green Books" on each country visited that can be purchased and are only available to those who go on the tours. They are the complete story of each country, bottled down into 2,000 words and can be used as a permanent record for present and future reference.

The Detroit YMCA was happy to obtain the seminar tours from the University of Heidelberg, Germany, as director of their European

Friendship tour this summer as these Seminar tours are "a vacation plus an education."

Mr. Kazmayr has been traveling almost continuously for twenty-five years, and has visited practically every corner of the earth, and has lived and worked in France, England, Germany, and Soviet Russia. Last fall he marked his 32nd trans-Atlantic crossing.

In 1947 he initiated his now famous Kazmayr European-Seminar Tours, taking a selected group of Americans on his own Europe each summer, giving them the best in travel facilities, plus lectures, interviews, and a picture not only of Europe's past, but of its present and probable future.

Mr. Kazmayr is not a professional tour conductor, he is an interpreter. Because of the unique nature of the tour, the Seminar will, as other Seminars, go by invitation only. All applications go on the waiting list until they are screened for the important qualities of good humor, good manners, simplicity, and the ability to grin and bear it when something - or everything - goes wrong.

The itinerary especially prepared for the Kazmayr YMCA Friendship Seminar Tour, which Mr. Searle will take, includes visits to England, Holland, Belgium, Germany, Switzerland, Italy and France. The group will leave New York Saturday, July 23, by Pan American Clipper for London, England, and arrive Sunday, July 24. The visit will include three days of sightseeing and visiting such places as Buckingham Palace, St. Paul's Cathedral, Westminster Abbey, Shakespeare's birthplace, and the British Museum.

Two days will be spent in Amsterdam, Holland, taking in such places as the Royal Palace and Rembrandt's house, in Brussels, Belgium, two days will be spent in visiting the Palace of Justice, St. Gudule Church, Botanical Gardens, and others.

From Belgium they will go to Germany where they will tour Cologne, Wiesbaden, and Freiburg. On the way to Freiburg there will be a motorcoach tour of the University of Heidelberg, Germany.

Three days will be spent at Lucerne, Switzerland, and one at Interlachen. The tour through Switzerland will take in some of the most beautiful, impressive and breath-taking scenery in the world.

Montreux, Venice, Florence, Rome and Geneva will be toured during the eight days spent in Italy. Sightseeing tours will include visits to Doge's Palace, Piombino, Prisons, Bridge of Sighs, the Arco, Glass factory, the Fontaine, Old Apian Way, Church of the Capuchin Monks, St. Peter's Basilica, the Coliseum, and the Roman Forum.

The last two days of the seminar will be spent in France at Nice and Paris.

The Seminar and sightseeing schedule of the delegates to the YMCA conference will coordinate with the conference schedule so that members of the tour will enjoy an interesting program of sightseeing in Paris.

The tour of Paris will include visits to the Champs Elyses, Arch of Triumph, Eiffel Tower, Chapel and Tomb of Napoleon, and exhibitions at the shops of the famous dress designers.

On Thursday, August 25, they will arrive in New York City and Mr. Searle will head for Farmington with a million never-to-be-forgotten memories.

School Board

(Continued from Page 1A)

that roadway rights would be granted by the School Board if streets proposed by the school district will be taken under study. The possibility of changing the course of the proposed road was suggested as a possible solution.

Following a report by O. E. Duncak, superintendent of school on rest rooms and heating facilities at the German School, it was agreed to withhold expenditures for repairs at this time. Action was taken to obtain title insurance on the building at property, giving the school district clear title and the right to sell. The rightful owner of the land has never been legally determined.

In separate action, the Board authorized the purchase of \$6,685.75 worth of gym apparatus, typewriter tables and a movie projector. Installation of hook-and-clothes lockers in the boys' and girls' locker rooms, as suggested by school administrators, was also approved.

Salaries of maintenance personnel in the school system was studied and more rapid salary increases to a maximum were authorized. A further study was made of the proposed athletic field at the new high school site.

Request for option on property in the proposed Kendallwood community center at Twelve Mile Road will be made to Thompson-Brown Realty following Board action Monday. The property was offered to the school district at cost by the developers some time ago. A committee was appointed to seek out other desirable sites for schools which will be needed in years to come.

Summer Program

(Continued from Page 1A)

first trip will be taken this Friday. Buses will cross to Canada via the Ambassador Bridge and return by way of the Windsor Tunnel, thence proceeding to Bell Isle for a lunch and a visit to the Kiddies' Zoo. On the following Friday a trip will be taken to the Detroit Zoo.

Buses will make pick-ups for the trip from 8:30 a.m. at the grounds only and will leave for the trips promptly at 9:30 a.m. Piche concluded.

Township Board

(Continued from Page 1A)

The Board passed a motion, four yeas to three, to approve the plat for the Old Homestead Subdivision, near Drake Road and Eleven Mile Road. Following the initial four to three vote, Mrs. Eliza Avery raised the question of legality since the matter had been laid on the table at a special meeting held last Wednesday and no action had been taken to remove it. This was a matter of order and approved removing the matter from the table and a second vote was called resulting in the favorable four to three decision.

The principal controversy centered around the sanitary requirements for the subdivision. Thomas Tardy, Zoning Inspector and Board member, stated that the sanitation tests for septic tanks had been submitted to the County Health Department for approval. Charles Brown, developer, stated that this was not the case and that he had been submitted to the Board which stipulated certain requirements for septic tank installation as well as approval by health authorities. Tardy stated that he was quite sure that the percolation tests were mentioned as a requirements for final approval at the time the sanitary tests were authorized. He requested that the minutes of that meeting be read, but a motion to approve the plat was made and seconded and the vote was 4-3.

Bethune reported that he had been in contact with Pate and Hirt, engineers, regarding the development of the proposed water system for the southern and eastern portion of the Township. He stated that he had advised the engineers to proceed at once with the hiring of a geologist in order that sites might be secured for the drilling of test wells.

City Council

(Continued from Page 1A)

prior to the next meeting on Tuesday, July 5. Sealed bids on the plan in extensions for water and new wells to be present on the system will also be received and opened by the Council at its next meeting. The proposed sewer improvements in the Township will include installations along south Farmington Road, from Bel-Aire Hills Subdivision to the river. From the new high school to the river, and along Grand River. Additional sewer improvements will be included in the proposed Farmington Interceptor project.

Plan To Eliminate

(Continued from Page 1A)

an onerous structure.

The letter was in answer to a notification from A. G. Leonard, Township Administrator, advising the Board of the Board's intention to take court action declaring the premises a nuisance. Paterson stated that in view of the assurances he had received from Leonard that the Township would not find it necessary to institute the court action. The administrator also stated that as soon as workmen have completed the trenching for the sewer lines and making the basement safe, the Township will be advised.

Land Listings Available For State Tax Sale

The Oakland County Extension office stated this week that it has a small supply of listings of state-owned properties which will be offered for sale at public auction at the court house in Pontiac on July 14. These are lands which have returned to state ownership.

VETERANS MEETING

A regular meeting of World War I veterans of the Groves-Walker Post, American Legion, will be held at the Legion Memorial Home on Thursday, June 30, beginning at 8:00 p.m.

SURE TO SATISFY

on all exterior masonry

PEERLESS MASONRY FINISH

made with **PLIOLITE S-5**

SURE, BECAUSE:
PLIOLITE S-5 is a synthetic rubber resin - made by Goodyear - designed especially for masonry points - fully proved in over eight years of extensive tests and actual use.

SATISFYING, BECAUSE:
This paint is made with PLIOLITE S-5 to be easy-applying and fast-drying - completely alkali-resistant - extremely weather-resistant - exceptionally long-lasting.

WE RECOMMEND this paint for stucco, asbestos-cement shingles, concrete, block or brick. We do this because we know it is unaffected by alkalies - found in all masonry - that can destroy ordinary paints in a few months. Come in, today, for full details.

Obituary

Carrie B. Noble

Carrie B. Noble of Marlette, Michigan, died at the Heathstone Convalescent Home in Caro on June 23 after a long illness. She was born May 25, 1876, in Elby, Michigan, the daughter of Mr. and Mrs. George Gibson. She lived in Farmington until 1938, when she moved to Marlette. She attended Farmington High School. She was a school teacher for 20 years and a secretary for 12 years.

She is survived by three nephews: Ralph Noble of Farmington, Harold Noble of Marlette, and Charles Noble of Applegate; and one niece, Martha Noble.

Funeral services were held Monday at the First Baptist Church at 1:00 p.m. June 27 with Rev. Melvin Koper officiating. Burial was in Oak Park Cemetery.
