Your Friends and Neighbors

Along the Creek in Woodcreek
The children's picnic was the outstanding event of the week. Erin Janson and his committee of Don Horton, Bill Weichtman, Mr. and Mrs. Wingo, Arthur Busch, Doyle Tippet, Dick Wheeler, Bill Norman, and Dick Fellrath, deserved credit for a well planned affair. Every youngster wore a costume. Even the dogs patrolled bicycles along Wellington.

The picnic was an orchestra consisting of Carol and July Tippet, Bryan McCarry, Dick and Marjorie Lamb, Skipper Smith and Dwight Temple. It really was fun, with Uncle Dick Norwall's leadership to inspire them.
Sarah and Donald Horton, Judy and Carol Tippet, Bryan McCarry and David and Denise Seya accompanied by Mrs. Seya were a summer Recreation group taking the Bob-Lo trip last Friday. Sometimes the children have wonderful news to report. Please call Mayfair 6-2451 again and many thanks.

She was intrigued with sights at St. Anne's near Quebec and old Quebec with its historic walls. Then there was New Quebec with its very steep streets. They also went to Montreal, Lorne's former home, where they visited relatives and friends.

The Harry Langs of Old Colony Road have returned with children, Terry, Lynda and Laurel, from a most pleasant two weeks spent at Frankfort. FROZEN JAM IS "THE BERRIES," SAY FOOD EXPERTS

It's the berries - frozen raspberry jam, that is. Because it is not cooked, the jam (it can be made from frozen or fresh fruit) must be kept frozen for long storage or refrigerated for short storage.

With frozen jam you need no longer spend long summer hours over boiling kettles to save fruit when it is ripe. Now you can freeze the fruit and make up the jam as needed by the family and as the job fits your schedule.

The Human Nutrition Laboratory of the U. S. Department of Agriculture developed the jam to increase the use of fresh fruit. It has undergone practical home-kitchen testing in which home-makers made the jam in their own kitchens and then sent samples to the laboratory for testing.
Home economists at Michigan State University describe the jam as having delicious fresh fruit flavor, bright natural red color and a texture jellied just enough to hold its shape and spread well. And the making of it is so easy and quick.

Almost any fruit can be used for frozen jam. In making raspberry jam, the fruit would be crushed and the sugar added. After allowing it to stand until the sugar was completely dissolved, you add the pectin - either powdered or liquid.

After letting the pectin, sugar and fruit mixture stand a few minutes, it is ready to be ladled into jelly glasses. Then let it stand at room temperature 24 - 48 hours or until jellied. Seal it with hot paraffin, cover and store in the freezer.

Treasure Wall

A concealed buffet, hidden in the wall of dining room or nook, saves space and puts silver, linen and china within reach of the table. The doors of the buffet should be made of identical matching panel boards to conform to the wall, and the most popular are Douglas fir or west coast hemlock. Tray drawers give peek-in vision. Doors are held by touch latches, concealed perfectly in wall when closed.

Give children small servings; remember, big amounts may be discouraging to a small child. It is well for a child to form the habit of cleaning his plate and then asking for a second helping if wanted.

From where I sit... by Joe Marsh

"Light" Snack For Ducks

Coming back from Belessville the other night I noticed a powerful light at Whitley Fisher's Duck Farm. Seemed to be shining out over the water.
I stopped to ask Whitley what went on. He took me down to his pond and pointed out a 200-watt bulb - rigged up on a pole about three feet above the surface. The light was attracting thousands of insects for the ducks to eat. Seemed kind of odd to me - but Whitley was enthusiastic. "Best idea I ever heard of," he claims. "Keeps the feed bill down - and the bug population, too. Why do you suppose I never thought of it before?"
From where I sit, Whitley's the type who's always ready to pioneer a worth-while new trick. Me, I stick to old methods. Just a case of personal feeling. I guess... like the way you may prefer coffee with meals while I always prefer a traditional glass of beer. Not that I'd claim you're wrong - respect for the other man's opinion is my "guiding light."
