This man works for only one company — your gas company. But his "bosses" are many — YOU — our customers and our stockholders.

Chances are that if you and your neighbors are not direct owners of our company, you share in our ownership through your investment in insurance policies. Insurance companies are heavy investors in the securities of this and other privately-owned, tax-paying gas companies.

What's the reason for this investment? To earn dividends — which, incidentally, form one of the smallest items in your gas company's operating dollar.

And what do you receive as a customer? You get top-notch, around-the-clock gas service to make your living better. And with all this, gas service is one of the biggest bargains in your daily budget.
