Good gas service and plenty of it - around-the-clock and around-the-year - can be just what the doctor ordered to make your community grow.  
It's a prescription your gas company seeks to live up to - for the availability of gas for industrial processing often is important in the location of new industry.  
However, additional gas supply and the underground mains and other facilities needed to deliver it to you can't be provided overnight.  
That's why your privately-owned, tax-paying gas company must risk investments in new manpower and expanded facilities today for your industrial, business and home needs of tomorrow. These investments make sure you'll always have vitamins G-A-S available for your community's growth.
