

Expect to pay more for appliances this fall. Candidates for price boosts will include refrigerators, automatic coffee makers, irons, electric roasters and frying pans, cutlery and blenders. Also hi-fi sets, record players, musical instruments and perhaps washing machines, dryers and freezers. Whispered warnings that clothes will be more expensive, are heard in the wholesale markets. But increases seem more probable in spring, lines than in fall and winter things.

## CHRISTIAN SCIENCE

The fact that understanding the illness of God, Spirit, frees man from the idolatry of materialism will be set forth at Christian Science services this Sunday in a Lesson - Sermon entitled "Matter." Passages will be read from the King James Version of the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy.

To have doubted one's own first principles, is the mark of a civilized man.
