ELECTRICAL SERVICE to residents of the area will be handled much more efficiently in the near future as a result of the setting up of an Oakland County District Center by the Detroit Edison Company. The district, which embraces all of Oakland County except Holly, is shown in the map above. The new Pontiac Service Center will be an important part of Edison's customer service system.

Central Communication System and Service Center Set Up By Edison

A Detroit Edison central communication system and customer service center, designed as a clearinghouse for prompt and efficient handling of customer service calls and new business inquiries, is being set up in Oakland County.

Harley Walters, manager of Edison's Farmington office, said that all telephone calls for customer service and new business inquiries from Oakland County customers will be received through a central answering system in the company's Birmingham office. Service orders will be sent by teletype or special messengers to servicemen stationed at six locations throughout the district.

Walters pointed out that the new system will provide a continuous district-wide survey of customer needs. It also will speed up dispatching of servicemen, linemen and other company representatives to meet normal or emergency requirements.

Billing information and other customer records will be centralized in the Birmingham office where they will be readily available for use in answering telephone inquiries. The central answering set-up will eliminate many transactions now handled in the Oakland District customer offices, giving office representatives more time for local business.

For better coordination of customer service activities, several Edison departments have been centralized in the new Pontiac Service Center, located on Orchard and Lake Road just west of Telegraph. This building provides offices and workshops for 125 employees.

The mid-county location of the service center and its nearness to highly populated areas will be important factors in fulfilling the present and future electrical needs of Edison customers.

Detroit Edison now serves about 650,000 Oakland County people and about 40,000 more than one year ago. It is estimated that the company will be serving more than 800,000 people in the area by 1970.

Walters said that the new communication and customer service system, which will be in full operation within the next few months, will help keep Edison's high standards of customer service abreast of the increasing demand for electric power. Plans are being made to set up similar central answering systems and customer service centers throughout the entire area served by Detroit Edison.

CONSERVATION GRANTS USED IN STATE LAST YEAR

National Wildlife Federation conservation grants were used in fifteen states this year. Monies, made available on a cost sharing basis to the state affiliates of this national organization, were provided for conservation projects in Michigan, Idaho, Illinois, Iowa, Maryland, Massachusetts, Missouri, Montana, New York, North Dakota, Oregon, Pennsylvania, Tennessee, Utah and Vermont.

Conservation scholarships and workshops for teachers topped the list of the projects sponsored by the state conservation groups. These were offered by the Idaho Wildlife Federation, Illinois Federation of Sportsmen's Clubs, All Iowa Conservation Council, Inc., League of Maryland Sportsmen, Massachusetts Conservation Council, Michigan United Conservation Clubs, Conservation Federation of Missouri, Montana Wildlife Federation, Tennessee Conservation League, Utah Wildlife Federation, and the Vermont Federation of Sportsmen's Clubs.

Grants were used by the Michigan Conservation Clubs to help finance a boys' conservation camp. Grants were in the amount of \$900 except for Montana, which received \$675. Monies collected through the sale of National Wildlife Federation conservation stamps finance the grants-in-aid program of this private, non-government organization.

LEGAL NOTICES

HARRY H. MEAD, Attorney
347 N. Main, Milford, Michigan
STATE OF MICHIGAN
FOR THE COUNTY OF OAKLAND
No. 8147

In the matter of the estate of Robert Lewis Zoller, Decedent.

At a session of said Court, held at the Court House in the City of Pontiac, Oakland County, on the 25th day of August, A. D. 1955.

Present: HON. ARTHUR E. MOORE, Judge of Probate.

Allice M. Zoller, administratrix of said estate having filed in said Court her Final Account and petition praying for the examination and allowance thereof, determination of the heirs of said decedent, and the discharge of said administratrix; and the discharge of said Court in the forenoon, A. D. 1955, at nine o'clock in the forenoon, said Court in the City of Pontiac, Michigan, be and is hereby appointed as the time and place for hearing said petition.

It is further ordered that notice be given to all interested parties as shown by the records in this cause by delivering a copy of this order to each of them personally, or by mailing such copy to each of them by registered mail with return receipt demanded addressed to their respective last known addresses as shown by the files and records in this cause.

And it is further ordered that public notice thereof be given by publication of this order in this paper once each week for three successive weeks previous to said day of hearing in the Farmington Enterprise, a newspaper printed and circulated in said county.

Reveal Principal Causes Of Home Fires At Night

What are the principal causes of fire at night in the home? The Institute for Safer Living of the American Mutual Liability Insurance Company lists them in reasons:

Failure to keep premises free of rubbish; failure to eliminate chimney and flue defects; failure to keep home heating apparatus properly repaired; failure to use proper care in smoking and in disposing of burning matches and cigarette butts; failure to keep electrical wiring and fixtures properly inspected and repaired; failure to put out or properly bank fireplace or stove fires before retiring.

How do you rate?

The animal was released in Trout Creek.

Michigan's population increase — more than 10% in the past five years — is the biggest in the Middle West.

PLAYFUL BEAVER FRIGHTENS BATHERS AT PARK BEACH

A recreation-minded beaver joyfully joined a group of youngsters at Rogers City municipal beach recently and began to take part in their water fun.

His joy soon turned to gloom. His young playmates scampered for shore. Unappreciated, he drifted about looking for new companions.

He found these in conservation officer Ned Curtis and a local sportsman, who tried to coax the critter with a landing net. When this failed, the two men herded their misguided bather into shallow water where Curtis scooped him up by hand.

The animal was released in Trout Creek.
