DEPARTMENT WARNS AGAINST MONOXIDE

haust gas; enough to cause suffocation quickly in an enclosed
space.

This means, the department
warned, that you should never
warn up your car engine in the
garage unless the doors are open.
With the doors closed, a deadly
concentration of carbon monoxidities. The department says it's
also a good idea to drive with one
window open a little — even in
the coldest weather. A faulty exhaust system can allow carbon
monoxide to escape into the carSince it is a colorless, doorless,
tasteless gas, you might not realize
this had happened until too late,

to the most frequent source of carbon monoxide, the department
points out that the gas can result
from burning any fuel which contains carbon — such as coal, gas
or oil. Whenever combustion is
incomplete due to an inadequate
supply of oxygen, carbon monox

It Takes More LUCK!

.. To Make Your Advertising Pay Off At The Cash Register!

Advertising success is almost always a matter of good management rather than "good luck." The advertiser who consistently gets the best results persistently follows this simple formula: (1) Advertise the right merchandise at the right price; (2) Time your advertising to suit the buying habits of the market; (3) Place your advertising where it will have the best chance of being seen by the greatest number of those who are ready to hus.

In Farmington that means THE ENTERPRISE, now being read by over 12,000 persons each week. Don't trust to luck . . . advertise where Farmington people meet . . In the columns of . . .
