### Two Local Exchange Students Enjoy Summer Vacations In Mexico City

Diane Franjae and Ginny Nelson, Farmington High senior and junior respectively, spent the majority of their summer vacation enjoying life as exchange students in Mexico.

Each year students are chosen from Mexico City high schools by a professor from the University of Mexico to represent their country as exchange students in America. Likewise, students from American schools are selected by their teachers to represent America in Mexico.

Diane and Ginny, chosen by their Spanish II instructor, Miss Mary Bastianelli, began their journey to Mexico June 27. The girls left Farmington by car with Diane's father driving. The three spent seven days visiting places of interest in the southwestern part of the United States.

A two-day visit with relatives in Texas was followed by a trip to Monterey, a small town just across the Mexican border. Here the girls and Mr. Franjae spent a day and two nights contending with a flood caused by the swelling of a nearby river. The high mountains and steep cliffs made the journey to Mexico City a breath-taking experience for both Diane and Ginny.

College Night was "very successful this year," remarked Mr. Timmons, counselor, who assisted in the planning of the event. "Next year's session will be held at Walled Lake with Northville and Walled Lake as co-sponsors," he reports.

The program will be held either the first or second week in November next year.

**NOW - Just touch the pedal and away you go!**  
(That's the New Variable Pitch Dynaflo!)

Of course, you can floor the pedal of this stunning new '56 Buick and get the full-power sweep of its advanced new Variable Pitch Dynaflo.

That's how you switch the pitch of this airplane-principled transmission for instant safety-surge acceleration to get out of a tight spot on the highway.

But now you get a brilliant new response at the start of pedal travel, too.

Now you get a solid take-hold for instant take-off in the first inch of pedal action — where most of your normal driving is handled. And you get this great new getaway with a big boost in gas mileage, too.

So there you are, just nudging the pedal, and getting action that makes you feel like you've floored it.

There you are, handling all your normal driving situations with a confident toe-touch — with new surety and snap — and with the happy satisfaction that comes with a sizable step-up in the miles you get from a tankful of gas.

And there you are, rolling along with beaming pride as boss man of the best Buick yet.

For here you have, beating any past Buick, the greatest power yet — the boldest styling yet — the sweetest ride yet — the smartest interior yet — and, by far, the best buy yet.

Drop in on us this week — tomorrow, if you can — and see for yourself that there's never before been anything like this Buick beauty for 1956.

\*New Afterswept Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.
