

Looking Ahead By Dr. GEORGE S. DENSON

(Continued from Page 2B) slow and trembling, but in vain of his only son to quit the lurking place of the worm. My heart beat when he turned away for I knew the fond hope that his son would be the staff of his declining years...

It should be explained that the worm of the still is the small lower coil of copper or lead tubing from which drips the powerful distilled product. Mountain whiskey stills are heated at 150 to 160 degrees Fahrenheit to obtain the necessary water supply. The writer of the McGuffey Reader's "The Venomous Worm" was John Russell, an anti-alcoholist...

Sponsored by Kluff Cadillac, 20455 Grand River, the two entertainers will be chauffeured on the whirlwind ticket-selling campaign in a new 1955 Cadillac.

The Frolics will feature a wide array of top flight entertainers. The season is extended to a special Christmas program. Proceeds will be used to help provide a brighter Christmas for those who might otherwise have no Christmas.

STRAITS FERRIES REPORT RECORD VEHICLE CROSSINGS

Highway Commissioner Charles M. Ziegler reports that Michigan State ferries had the first ten months of this year, carried 894,836 vehicles across the Straits of Mackinac, compared to 747,822 in the same period in 1954.

The rate of increase would also indicate that for the entire year 1955, the state ferries will carry approximately 940,000 vehicles across the Straits to surpass 900,782 vehicle, the record year so far.

(Continued from Page 2B) from a report written by an engineering firm. In short it amounts to this: In an order for the proposed toll road to pay roads, Ziegler must not improve roads which might be conceived to compete with it.

Ziegler says he cannot become involved in such a much abused toll road were built, and if improvements already planned for highways on the "competitive list" were completed, it is the present existence, Ziegler could get the blame.

COMMISSIONER JOSEPH A. CHILDS is wanting no time recruiting men to fill 200 new troops' uniforms. He started the night that the legislature passed the bill for approved 200 new troops as part of a package plan to step up highway safety in Michigan.

With this method, he said he would be able to have the extra troops on highway patrols before the next big summer driving push on Memorial Day. He urged that young men apply and said they could get information at any Michigan State Police office.

Recruits have been hard to get since World War II when candidates marched away to war. Some came back to the ranks, but with the Korean conflict, the pickings have been slim.

Because of the high state police standards, Childs said that he would be forced to recruit many more than the 200 he needs as finished, polished law enforcement officers.

APPOINTEES of Governor Williams to state jobs will get a close check during the interim by Senate committee members. The Senate Business Committee asked for the right to operate between sessions to look into the qualifications of appointees so that the Senate could make a better judgment on confirmations.

Senator Edward Hutchinson (R-Fennville) denied it would be an inquiry or a subpoena matching the disposing of political pals of the governor who were appointed to positions in government.

"We feel this will be as much a benefit to the appointee as to the Senate," he said. "Often we hear disparaging remarks about an appointee, and we would either prove them or set them at rest." Hutchinson's committee must pass on the qualifications of appointees before they are taken before the full Senate for a vote of confirmation.

He said the committee would hold no public hearings or announce results. Woman is like the reed which bends to every breeze, but breaks not in the tempest. John Clappison Sells Insurance Phone GR. 4-3511
