BIGGEST OF THE BIG 3 - and mighty proud of it!

56 Buick SPECIAL!

You certainly should look at the '56 Buick SPECIAL!

We've said it before, and we'll say it again: If you can afford any new car, you can afford a Buick—and the sales figures make the proof of that stronger and stronger.

Just ask yourself: which cars would normally be in the top 3 of America's best sellers? The well-known smaller cars—naturally.

But which cars are in that Big 3? Two of the well-known smaller cars, and Buick—for over two years running now.

That means Buick prices are well within reach of more and more people—thanks primarily to the budget-tagged Buick SPECIAL, like the one pictured above.

And that's the whole point of the matter. For this low-priced Buick SPECIAL—so close in

cost to the smaller cars—is so much more automobile for the money, it's the stand-out buy of its field.

It's the biggest of the Big 3 in power, thrill, in comfort, in size and breadth and luxury and sheer roadability.

It's the biggest of the Big 3 in the solidity and softness of its alloy-spring ride—in the sweep of its styling and in the pure thrill of its performance.

For where else but in Buick can you get the nimble getaway, the gas-saving mileage, the electrifying switch-pitch action and the

absolute smoothness of the new Variable Pitch Dynaflow?

Come in to see and drive the biggest bundle of high-powered beauty and energy ever offered in Buick's lowest-priced Series.

It's proud we certainly are to be able to offer so much car for the money—but nothing to how proud you'll be when you boss a new SPECIAL. Can you come in tomorrow?

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick built today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
