The club is open to interested underclassmen as well as seniors. Miss Estelle Stang is the advisor.

Swiss steak is one of the nicest things you can do with good or standard grade beef, say cooking authorities. Cook this economy beef with moisture so it is "tender as steak." You can get the moisture in many different ways: add a little water or use tomato juice, bouillon or sour cream. Some homemakers like to cook Swiss steak in onion soup.

# FORD TRUCKS COST LESS

## ...less to own...less to run...last longer, too!

Before you buy your next truck, look at both sides of Ford's story of value: what you get and what it costs. You'll like what you see. Look at the costs. Ford's first cost is low. Resale value is high. Modern Short Stroke engines—V-8 or Six—are designed for less friction, less wear, lower running costs. Maintenance costs are lower, too, because Ford trucks are built stronger for rugged long life. And a 10-million truck study proves Ford trucks last up to 9.9% longer than any of the other leading makes.

Look at what you get and you'll see you get more for your money in a Ford. For example, only Ford gives you modern Short Stroke power in every truck, V-8 or Six. Sodium-cooled exhaust valves in Heavy Duty engines run up to 225° cooler, last longer. More comfort with a Driverized Cab. More safety with Ford's exclusive Lifeguard features.

Look carefully... consider everything. You'll agree Ford trucks cost less, give you more. If you want a great deal—a great deal more for your money—see your Ford Dealer.
