Top Snack Now, Specialist Says

Sugar plums are associated with this time of year. For a treat for breakfast, brunch or in-between meal nibility, you'll want to make some baby sugar-plums to please both grown-ups and children.

Sugar plum dough, explains Grace Masuka, dormitory manager at Michigan State University, is exceed yeast dough filled with can died fruits. Depending on how fruity you want your dough, to but to one or exceed the control of the co

Frint designers continue their Form the dough into balls that will full greased muffin cups about the will full greased into the second of the

plants.
Sprinkle walks with finely ground salt mixed with sand. This will break up ice and prevent slipping while the ice is mylting. Fine salt will be diluted quicker and as a result not be as injurious to plants as will concentrated rock salt.

as a result not be as injurious to jaints as will concentrated rock salt.

When shoveling snow, dump it on the lawn rather than around shrubs, particularly it the salt content is high. It will cause less harm to grass than to shrubbery or evergreens.

If you have, some lectover granishing the salt content is high. It will cause less than to grass than to shrubbery or evergreens.

If you have, some lectover granishing the salt content is not be plant in the spring. However, the area to help make them safe. This fertilizer will be available to plants in the spring. However, be careful not to get this fertilizer too thick or on the follage of plants as it will burn severely. Also, this fertilizer may track into the house and do damage to rugs. A shoe-cleaning mat at the door will prevent this from happening. The specialists also su extragals or the salt of the

mits water to run onto waters.
Of course, when possible, prompt sweeping of snow from sidewalks will help prevent ice formation, the specialists point out.
Another tip for reducing danger from icy steps is to leave porchights turned on during times that visitors might be arriving.
