Around The Circle In Staman Acres

MRS. WILLIAM SMITH

GR. 4-8292

The Board of Directors of the Staman Acres Civic Association met Monday, January 14. Authority was given to President Bob Williams and to Secretary Jim Ellis to act as representatives of the newly organized League of Subdivisions.

Fran Christensen was asked to inquire, as a committee of one, into the mosquito control problem. The light for the Rocky Crest - Orchard Lake Road intersection is being started at this writing.

The biggest item of news is the proposed party that the Association is planning for March 1. Those who like square dancing or square dance music will be especially interested. Round dancing is also planned for the evening as well as entertainment and a satisfying mid-night repast. All is under the able guidance of recreation chairman Zora Cross and her social committee composed of Charlotte and Vic Waskowski, Ernie and Paul Christensen, Bob and Catherine Williams, Joanne and Bill Smith and Jack Cross.

Tickets will be available in the near future.

Several plans are now being made by the recreation committee. Bill Smith will look into the whereabouts of a hang-up start party for men only. A personal contact has also been called for and public announcement will be made soon for a meeting of all those interested in card playing. The Acres should soon be buzzing with table talk and neighborly merriment. Thirly, a mixed bowling team is on paper and as soon as more information has been obtained a meeting will be called for this activity.

These activities are the footings and upon it the residents of Staman Acres can build a framework of social, business, and civic accomplishments that will bear fruit in the years to come.

Jim and Bev Ellis have offered their basement as the start-off point for a newly-born square dance class. Mar and Palmer Esser, Joyce and Al Thompson, Zora and Jack Cross, Dee and Ray Ware, Bob and Catherine Williams, Charlotte and Vic Waskowski and the Ellis are the nucleus. Space is left for another set, it is reported. Call Zora Cross at GR. 4-6848.

Mar and Palmer Esser, of Belmont Road, were guests a week ago (Saturday) of Fred Huetwell of Detroit, along with a group of musicians who meet to enjoy records and conversation about this medium of the art world. Mr. and Mrs. Michael O'Connor, formerly of Iresh, were also guests for the evening. The devotees were especially interested in Mrs. O'Connor as she is a concert pianist.

Mr. Huetwell has a vast collection of records and an impressive hi-fi set-up which allowed for vivid musical enjoyment. He interspersed the selections with highlighting talks on the various movements and instrumentalizations of the works played, it was reported.

Kay Wilkins celebrated a birthday this month so she and husband Stan celebrated at a buffet dinner on January 13, in their Staman Circle Drive home. Those joining in the "Happy Birthdays" chorus were Kay's mother, Mrs. Catherine Poyama, and her sisters and their families: Mr. and Mrs. Robert (Boch), Bobby and Brian; Mr. and

W. Bloomfield Players Group To Meet Jan. 31

The Township Players of West Bloomfield will hold their monthly business meeting on Thursday, January 31, at the West Bloomfield Township Hall.

The membership committee has announced that there are membership vacancies now and that anyone over 21 years of age is eligible to join the group. Residency in West Bloomfield is not necessary, it was pointed out.

Members of the club extend an invitation to the people of Farmington and vicinity who are interested in any phase of little theater productions to attend the meeting and bring a friend.

The entertainment for the evening will be a skit adapted from the short story by Jack Fenney, "The Little Courties," which will be staged by the membership committee of the Township Players of West Bloomfield.

You'll learn on a turn—
**It's low for
MORE than looks
alone**

As you can plainly see, the gorgeous new 1957 Buicks are low—low to match the sleek silhouette of their modern sports-car styling—

Lower than any Buick in history—by as much as nearly four inches — and, mind you, with more interior room and without sacrificing an inch in road clearance.

But you'll soon learn that this sleek new lowness does more than add beauty to the Buick look. It brings new greatness to the Buick ride.

First time you twist round a corner or snake into an "S" curve, you'll learn how this new Buick's new lowness tames the turns. How it sings the car to

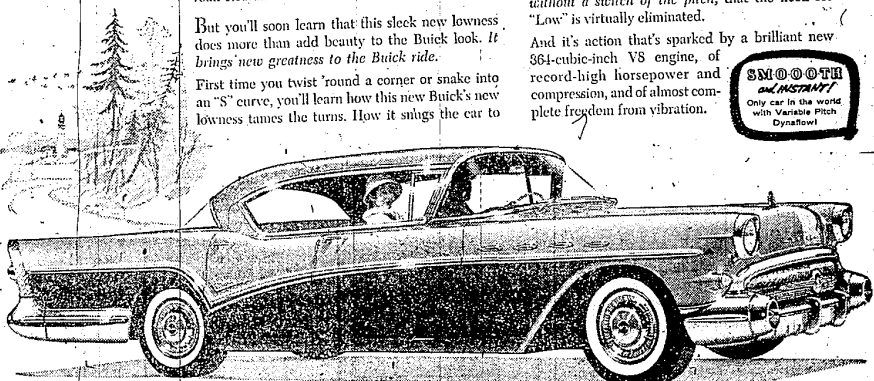

the road. How it cuts down the sidesway. How it gives you the safe-and-sure-footed steadiness of four wheels always on the road.

That's because these sweet-handling, sweet-riding beauties give you the lowest center of gravity in Buick annals—born of a brilliantly engineered new chassis that "nests" your ride low and steady as you go.

But the core of this new Buick's story is the action you get.

You get action that stems from the instant response of an advanced new Variable Pitch Dynaflo® so able and obedient and full-range in "Drive," even without a switch of the pitch, that the need for "Low" is virtually eliminated.

And it's action that's sparked by a brilliant new 364-cubic-inch V8 engine, of record-high horsepower and compression, and of almost complete freedom from vibration.

Buick Wildcat 4-Door Riviera

So come in to see and sample all that's new in these newest Buicks yet—all that's new in styling—new in ride and handling—new in power and performance—new in roominess, safety, luxury and fun.

Do that—before another sun sets!

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Safety News
Only Buick has the Safety-Master.
—A simple device that's a great boon to your safety.
—You merely press that miles-per-hour warning buzzer sound.
—When you reach that pace and the buzzer stops.
—Drop below that pace and the buzzer stops.
Standard on ROADMASTER, optional at extra cost on other Buicks.

Safety Reminder
If you miss your turn off on a highway, don't panic your brakes. Just go to the next exit.
