Cooking with cheddar cheese? Consumer Marketing Information Agents say be sure you grate natural cheddar cheese just before you need it when you want it to melt smoothly and blend easily with uncooked mixtures. Keep the heat low. Blend with a smooth sauce to prevent curdling; should the cheese curdle in the middle of making a sauce, remove it from the heat and beat it with an egg beater.

For a taste perk-up, stuff a porked pork with drained sausage, kraut, brown the chop slowly; cover with more sauerkraut and simmer for 45 minutes.

## Survey Conducted By U. Of M. Shows Many Trends Among Adolescent Girls

Today's adolescent girls are re-evaluating the conflict between home-making and career that plagued previous generations of American girls. They plan to continue their education and work for a time before marrying, and they want white collar jobs for themselves and for their husbands. Only 7 per cent wish to marry men who work in factories, on farms, or at a trade or craft.

These are some of the findings of the first nationwide survey of the personal and social interests and aspirations of girls 11 through 18 years of age, conducted by The University of Michigan's Survey Research Center by the U.S. Bureau of the U.S.A. The study was supervised by Elizabeth Douvan under the supervision of Stephen Withey of the Center.

Based on interviews with a scientifically selected sample of nearly 3,000 girls representing all girls in grades 6 through 12, the
