"KNOWLEDGE IS TO BE GAINED ONLY BY STUDY"

(Author's Name Below)

The knowledge necessary to properly dispense medicines is taught to pharmacists at college. Four years of study is required before we can secure our license to practice pharmacy.

Every medicine, whether in a prescription or not, should be at its best when you take it. Only a pharmacist is taught how to compound, protect and dispense them. It is our legal and willing duty to make certain that you do not use them improperly.

You benefit by our knowledge when we pharmacists supply your medicines.
