**Student Council Makes Changes In By-Laws**

The Farmington Senior High Student Council passed a motion last Tuesday revising the S. C. Constitution By-Laws. The motion eliminated two outdated By-laws, added two permanent committees to the Council, and revised a By-law which referred to the old juke box and its use in connection with the dances. The motion was proposed the previous week by Dick Hoffman, Chairman of the revision committee, and passed by an almost unanimous vote this week. D.P.

**Track Meets Cancelled Because Of Muddy Field**

Farmington's track team has yet to hold a meet on its home field. The reason: mud. Such was the fate of the two meets scheduled to be held last week. According to Mr. Gene Freed, track coach, all that is needed is one dry day which will enable the maintenance staff to roll and drag the area. Whether or not these two meets will be rescheduled depends on how soon the necessary work can be done. W.C.R.

expended balances or prior appropriations and \$67 million in foreign currencies, this group of activities would have \$78.8 billion for expenditure."  
2. Foreign Aid and International Affairs, \$2 billion. "The reduction contemplates military assistance at this year's \$2 billion level, at a saving of \$0.5 billion; and \$1.5 billion cut in economic aid. After this cut, military assistance will have \$2 billion in new appropriations, \$4 billion in unexpended balances in prior appropriations, and \$70 million in foreign currencies, for a total of \$2.4 billion. After this cut economic aid would have \$400 million in new appropriations, \$2.2 billion in unexpended balances in prior appropriations, and \$128 million in foreign currencies, for a total of \$3.3 billion."  
Up 36%  
3. Domestic Civilian Activities, \$3 billion. "This includes remaining federal activities. Appropriations to these activities are up 36 per cent since 1954. The budget contains 37 proposals for new and expanding activities in this category with 1958 requests totaling \$2 billion. These include 14 new federal grants-to-states programs, bringing the total to 67, and among these is the public-school-construction program with a first year appropriation of \$43 million. Among the hundreds of old current accounts, the budget proposes increases in three out of every four. After this cut, domestic civilian programs, exclusive of highways, will have \$23.8 billion in new authorizations plus \$24 billion in unexpended balances... for a total of nearly \$48 billion."  
In a major Senate speech presenting the "Byrd" Budget, the Virginian said the \$73.3 billion budget was dangerous to the future prosperity and security of every American citizen. His recommendations command the serious consideration of Congress and the President.  
Next week: The "Three Perils" of the \$73.3 billion Federal Budget.
