Mr. Dunkel, who will retire July 1, was presented with a "Scroll of Honor" which had been hand-printed by Mr. Ray Glenn, commending Mr. Dunkel's work in the field of education and wishing him a happy retirement.

Plan To Expand Music Program

All students planning next year's program should keep in mind the new music appreciation course to start next year—if enough enroll.

The course is for anyone who enjoys music of all types and would like to learn more about it. It is a one semester course that would give one half credit for the semester.

At least 25 students must sign up for the course for each semester or the course will not be offered.

Mr. Feucht, vocal music instructor at F.H.S., states that it has been a disappointment to him that school as large as ours does not have a boys' chorus of some kind and size.

"We have always been short of boys in our choir." In order to remedy this situation the music department is setting up a long range three year plan in hopes of building a strong boys' chorus, a good sized girls' glee club, a mixed choir, and a cappella choir for the more select voices which will properly replace the Falconettes.

Mr. Feucht says, "I can't think of anything that can better represent a high school than good, big, strong vocal groups to go out and represent it at contests and concerts."

Mr. Feucht feels that a good singing voice and the experience of singing can help any boy not only now but in the future.

He appreciates the help that St. Mary's boys gave to F.H.S. in this year's cantata, but wishes that it could have been 30 Farmington boys instead.

"Vocal music will," Mr. Feucht says, "Also help you earn a half credit a year and will spend two credits toward the 17 total credits needed for graduation."

To Give Talk On State Population

Professor Amos Hawley, head of the Sociology Department at the University of Michigan, will give a lecture entitled "Population and Economic Trends in Michigan" to faculty members and interested adults.

The lecture, followed by a discussion period, will be given Wednesday evening, April 17, at 8:00 p.m. in the Senior High Library.

Professor Hawley will discuss the development of Michigan in the next 15 or 20 years in terms of population, economics, and business.

"There will be no admission charge. This is made possible by the Board of Education through its In-Service Program."

Michigan Driving Laws Explained

An explanation of basic laws governing driving in Michigan was given to an assembly of driver education students Tuesday, April 9, by a representative of the state police in a sixth hour assembly.

Along with the talk, a slide film was shown and a demonstration of proper driving techniques was given.

A question and answer period followed.

Mr. Clayton Graham and Mr. Clifford Broderson are instructors to the group.

Lunch Supervisor To Be Employed

Meals for Farmington School cafeterias will be planned by a hot lunch supervisor, next year, Mr. James M. Reed, Assistant Superintendent, has announced.

The supervisor will not be a registered dietitian, but she will have received college training and will be capable of buying, making reports to the county and state, and planning the menus.

Mr. Reed stated, "We find there are very few 'true' dietitians available, and that they do not always meet the requirements of a general manager such as we need at the present."

The supervisor will begin her duties next fall.

Elected College's Council President

Gary B. Walters, a junior at Western Michigan University in Kalamazoo, was elected the new student council president after an extensive campaign which ended April 3. He will take over the gavel from Larry Olson this week.
